

**2025 Academic Year Four-year Academia Cooperative Degree
Overseas Youth Vocational Training Program (OYVTP)
Prospectus**

(Approved by OCAC document Qiao Sheng Yan Zi No. 1130502594 of November, 2024)

I. Application eligibility

- A. Those who meet the following qualifications may apply study on **the Four-year Academia Cooperative Degree Overseas Youth Vocational Training Program (the Program)** in Taiwan in accordance with the provisions of this brochure to Taiwan overseas government agencies or the recommending units designated by the Overseas Community Affairs Council (the OCAC); after being reviewed by the OCAC and meeting the qualification requirements of overseas compatriot students, the unit entrusted by the OCAC will assist in handling **the admissions process for this Program (including examinations and pre-allocation)**, and applicants will be selected and admitted by each enrolling school.
- (1) Overseas compatriot students who were born overseas and have resided continuously to date, or have recently resided overseas continuously for more than 6 years, and have obtained a permanent or long-term residence permit in their place of residence. The calculation of the period of continuous residence overseas for the last 6 years is based on the calculation of the deadline for application in this prospectus as the calculation base date and backward calculation of 6 years. However, those who meet the requirements for continuous residence years specified in this prospectus until August 31, 2025 can also apply. However, they must sign an affidavit and the OCAC will check the period of residence as of the registration deadline on August 31, 2025. If the applicant does not meet the requirements for continuous residence years, admission and allocation eligibility will be revoked.

Note 1: For applicants from Myanmar, the period of continuous residence overseas should be calculated forward 6 years to November 29, 2024 (from November 30, 2018 to November 29, 2024); for applicants from northern Thailand, the period of continuous residence overseas should be calculated forward 6 years to February 28, 2025 (from March 1, 2019 to February 28, 2025); for applicants from other regions, the period of continuous residence overseas should be calculated forward 6 years to March 31, 2025 (from April 1, 2019 to March 31, 2025).

Note 2: "Overseas" refers to countries or regions outside the mainland, Hong Kong and Macau. So-called "continuous residence (or reside overseas continuously)" means "the period of stay in Taiwan shall not exceed 120 days in each calendar year (from January 1 to December 31), otherwise it will be regarded as an interruption of overseas residence." Continuous residence is based on the aforementioned 6 years. During the calculation period, whether you have stayed in Taiwan for more than 120 days in each calendar year (from January 1 to December 31) will be determined. However, in the year when the calculation period begins and ends, whether the stay in Taiwan exceeds 120 days for these two years will be determined.

Note 3: If an applicant meets one of the following circumstances, his/her continuous overseas stay will not be considered interrupted; his/her period of stay in the country will not be included in the calculation of the period of overseas residence (that is, the period of continuous overseas stay must be calculated forward). Please attach supporting documents when registering to facilitate review.

1. Attend non-degree Overseas Youth Vocational Training Program organized by the OCAC or special technical training program recognized by the central competent education administrative agency.
2. Participate in activities organized by the OCAC or deemed by it to be organized by government agencies, or study in Mandarin language study courses offered by Mandarin education institutions approved by the central educational administrative agency for overseas enrollment, and the total period of the activities or study is less than two years.
3. Exchange students whose total exchange period is less than two years.
4. Come to Taiwan for internship with permission from the central competent authority in charge of the relevant industry, and the total internship period is less than two years.
5. Return to Taiwan to do military service and has enlisted and served.

6. Unable to return to the place of residence due to war, natural disasters or large-scale epidemic.
7. Due to other reasons that cannot be attributed to the overseas compatriot student, they are unable to return to their place of residence and have supporting documents.

Note 4: Obtaining a permanent or long-term residence permit in the place of overseas residence can be determined by obtaining citizenship or permanent residence in the place of overseas residence, or holding a passport of the Republic of China with Overseas Compatriot Identity Endorsement.

- (2) If students who have been previously approved for allocation were unable to come to Taiwan due to unforeseen circumstances, they will not retain their admission qualifications. If they plan to enroll in this program in the fall of 2025, they must re-apply.
- (3) Those have been allocated to universities (including National Taiwan Normal University Academy of Preparatory Programs for Overseas Compatriot Students) by the Overseas Joint Admissions Committee, or have been independently recruited through domestic universities and colleges and are currently enrolled in school, have suspended their studies, or have applied for retention of admission qualifications are not allowed to re-apply for this program. This is not applicable to those who attended non-degree Overseas Youth Vocational Training Program before the 41st term or OCAC Training Programs for Overseas Compatriots (華裔青年來臺就學輔導暨技術研習班).
- (4) Overseas compatriot students who returned to Taiwan to study after receiving counseling but stayed for less than two years and dropped out of school or lost their student status for any reason may reapply to return to study only once. Please attach supporting documents when registering and submit with the application form. However, overseas students who have been expelled or lost student status for poor conduct or academic performance, violating laws or school rules in serious circumstances shall not apply for admission in accordance with this provision.
- (5) Applicants under 25-year-old (born after July 1, 1999), who meet the requirements of the "Standards for Recognition of Equivalent Educational Levels for University Admission" and have graduated from a local senior high school or above or have equivalent academic qualifications.
- (6) Applicants **holding academic certificates from Myanmar and unregistered Chinese High School graduation qualifications in northern Thailand**, and which have been verified by the unit accepting the application to be true, **must take the local subject test and meet the minimum admission standards decided by the OCAC in order to be eligible to apply.**
- (7) Have TOCFL A2 or above, or have studied Mandarin for 480 hours (see the standard table for Mandarin listening and note-taking abilities adopted by the OCAC). If you do not meet the above requirements when registering for this Program, you must strengthen your Mandarin proficiency through the following Mandarin learning channels after admission and before the end of the first school year, and do at least 480 hours of study.
 1. Related Mandarin learning channels:
 - a.) Overseas compatriot schools.
 - b.) Local language school/Mandarin language center or local educational institution recognized by the OCAC.
 - c.) Domestic schools approved by the OCAC to hold 3+4 Vocational Education Program for Overseas Compatriot Students (產學攜手合作僑生專班) and this Program (physical or remote video teaching courses).
 - d.) Language Study Program for Compatriot Youth of the OCAC (physical or distance video teaching courses).
 - e.) Physical or remote video teaching courses from domestic educational institutions (such as Mandarin language teaching centers of various universities) recognized by the OCAC.
 2. Overseas compatriot students who graduated from Malaysian Chinese Independent High Schools or national/national-type secondary schools, and have Mandarin proficiency certified by the recommending unit, are not required to attach certificates and transcripts of A1 level or above in the Test of Chinese as Foreign Language (TOCFL) listening and reading tests, or Mandarin proof of study hours.

- a.) Graduation from a Chinese Independent High School: the unified examination transcript must be attached.
- b.) Graduation from national/national-type secondary schools: Those who take the "Sijil Pelajaran Malaysia (SPM)" examination or the "Sijil Tinggi Persekolahan Malaysia (STPM)" examination must take the Mandarin and achieve a pass grade.

Note 1: Foreign school academic certificates should first be verified by an overseas Taiwan government agency or OCAC Culture Center or the recommending unit designated by the OCAC

Note 2: Those who have one of the following qualifications equivalent to dropping out from a domestic senior high school, or graduates from foreign schools of the same level whose graduation grade is equivalent to the second grade of a domestic senior high school, may apply for universities and colleges with equivalent academic qualifications:

- a.) Only failed to study the last year of the prescribed study period, suspended from school for any reason, dropped out of school, or re-studied for more than two years.
- b.) Completed the semester above the last year of the prescribed study period, suspended or dropped out for more than one year for some reason.
- c.) After completing the prescribed number of years, failed to graduate for some reason.

The aforementioned calculation of the number of years of suspension, withdrawal or re-study starts from the end of the last completed semester as shown on the transcript, certificate of study, transfer certificate or certificate of suspension of study to the registration deadline of the current year.

Note 3: Those who have not yet met the requirements for suspension of study, withdrawal, or repeat years of study as prescribed in the preceding paragraph for equivalent academic qualifications are not allowed to apply.

Note 4: For graduates from foreign schools of the same level whose graduation grade is equivalent to the second grade of a domestic senior high school, if they apply for bachelor's degree classes in various universities, each university will increase the credits required for graduation or extend the length of study.

Note 5: Those holding the local transcript equivalent to a senior high school, academic qualifications (ability) certificate, and documents certified by the local government education authority stating that they can apply for the local university, and initially reviewed by a unit entrusted by the OCAC to assist in the admissions process of this Program (including examination service and pre-allocation), and have been reviewed and approved by the OCAC at an allocation meeting, can apply for universities with equivalent academic qualifications. However, the university may increase the credits required for graduation or extend the years of study based on the student's study status.

- B. Anyone who falls under any of the following circumstances shall not apply to return to Taiwan to study in accordance with the provisions of this prospectus. Those who violate the provisions will not be admitted; those who have already enrolled shall be ordered to withdraw from school and their student status shall be revoked.
 - (1) Those who have applied for the loss of the nationality of the Republic of China and it has been approved and have not yet obtained the nationality of another country.
 - (2) Holding forged or fraudulently used or altered certification documents or passports.

II. Application method

A. Application time:

- (1) Myanmar region: The deadline for receipt is from November 1, 2024 to November 29, 2024.
- (2) Northern Thailand region: The deadline for receipt is from November 1, 2024 to February 28, 2025.
- (3) Other regions: The deadline for receipt is from November 1, 2024 to March 31, 2025.

◆ Any late registration or incomplete registration will not be accepted, and no application for extension of submission deadline will be allowed.

- B. Application location: overseas Taiwan government agencies, OCAC Culture Centers or the recommending unit designated by the OCAC. Applicant overseas compatriot students should apply to the afore-mentioned units in their place of residence and are not allowed to apply across regions. However, if the place of completion of high school education and the place of residence are in different regions, the application shall be based on the place of completion of high school education.
- C. Forms for submission: Please first go to the registration website of this Program (website: <https://student.oyvtp.org/>) to log in your basic personal information and fill in your application, then print out each application form and prepare the following documents and then submit an application to the afore-mentioned units to complete the registration process. If the applicant is unable to log in to the website, please photocopy the format of the attachments of this prospectus.
- (1) Checklist for students' submission information (please place this form on the first page of the application form, and bind the remaining submission forms in the order of items in this form; the format is shown in Appendix 1).
 - (2) Application form in triplicate (each application form must be signed by the applicant and parents, and each application form must have a 2-inch frontal half-length photo with no hat attached; the format is as shown in Appendix 2).
 - (3) Residence certificate of the place of residence of the overseas compatriot (photocopy of the identity card or passport of the place of residence or a copy of the passport of the Republic of China with the overseas resident identity endorsement and other documents; those who do not have a passport or hold a travel permit are not allowed to apply; those with a travel document with validity period of more than 3 years for Brunei are exempt from this restriction. Those who hold the identity of mainland residents, Hong Kong residents, Macao residents or holders of passports issued by the mainland are not allowed to apply).
 - (4) Educational certificates:
 - a.) Graduation certificate (applicants with equivalent academic qualifications must attach a certificate of study). (Applicants who apply as fresh graduates during registration can first submit a certificate of enrollment in the current semester; however, they must obtain a graduation certificate (or a certificate of study with transcripts of previous years) before enrollment (in September 2025) at the latest) for review by school to which they are allocated, otherwise it will be deemed that the registration requirements are not met, and those who have been allocated will have their admission eligibility revoked).
 - b.) Original transcripts of the last three years of high school, and the location of the school and the length of schooling must be indicated. (Applicants who are graduating as fresh graduates at the time of registration are not required to attach transcripts for that semester if their grades for the current semester have not yet been obtained).
 - (5) School department application form. (Please first go to the registration website of this Program to fill in your application and print out the school department application form. If you are unable to go to the website to fill in application, please go directly to the application processing unit to obtain a paper application form to fill in; the format is shown in Appendix 3).
 - (6) Affidavit (Limited to those who meet the continuous residence period specified in this prospectus until August 31, 2025; the format is as shown in Appendix 4)
 - (7) Documents proving Mandarin proficiency (**not required**). If you have not submitted a Mandarin proficiency certificate at the time of registration, or your Mandarin proficiency has not yet reached the standard, or you have not studied Mandarin for the required number of hours, you can still register, but you must go through the designated Mandarin learning channel after admission and, before the end of the first academic year, strengthen Mandarin skills and make up 480 hours of study time.
 - (8) Subject Test Questionnaire for Myanmar and Northern Thailand (**restricted to applicants holding academic certificates from Myanmar and those who have graduated from unregistered Chinese high schools in Northern Thailand**; the format is shown in Appendix 5). Applicants with academic qualifications **from other regions do not need to submit**.

(9) Myanmar academic qualification verification affidavit (only for those holding Myanmar school academic certificates that have not been verified by the Ministry of Foreign Affairs of Myanmar and Taiwan’s representative office in Myanmar; the format is shown in Appendix 6). Applicants with academic qualifications from other regions do not need submit.

◆ Things to note in Myanmar:

(1) The Myanmar Subject Test is scheduled to take place on January 20, 2025 (Monday) in four examination cities: Yangon, Mandalay, Myitkyina, and Taunggyi. The examination location and issuance of exam admission ticket matters will be notified separately by the application receiving unit. If the number of applicants in Taunggyi and Yangon is too small, they will be merged into the Mandalay exam).

Candidates must bring their exam admission tickets for the examination. If you require a replacement for your lost exam admission ticket, please visit the examination office on the day of the test to request reissue.

(2) The Myanmar subject test time, subjects and score calculation methods are as follows:

Session	A	B	C
Time	08:30 10:00	10:30 12:00	13:30 15:00
Subject	Mandarin	English	Math
Score calculation method	1. Total test score. If there is an absence from the exam, the grade for that subject will be calculated as zero. 2. Those who are absent from all examination subjects will not be allocated		

(3) The original high school graduation certificate and transcript for the third academic year of high school education from a Chinese school should also state the name in Chinese, English and Burmese, the date of birth, the Myanmar national (public) citizen identity card number and the card number of the identity card held (That is Naing, Ei or Pyu, etc.). Those who have recently graduated from high school and have not received their graduation certificate can first submit a certificate of enrollment for the current semester (which should also state their names in Chinese, English and Burmese, date of birth, Myanmar national (public) identity card number and the certificate they hold ID card type), but the official graduation certificate (academic certificate) must be obtained by the end of August 2025 at the latest. Otherwise, it will be deemed that the registration qualifications are not met, and those who have been allocated will have their admission qualifications cancelled.

(4) The new system Myanmar high school diploma (Grade 12) and the transcripts of the last three years of high school should be accompanied by English translations. If the previously issued academic certificate has only been verified and stamped by the recommending unit or Chinese school designated by the OCAC, you can still apply if it has not been verified by the Ministry of Foreign Affairs of Myanmar and Taiwan’s representative office in Myanmar, but you must sign an academic qualification verification affidavit (the format is in the attachment 6); at the latest, you must complete the Myanmar school academic qualification verification before applying for a visa to Taiwan and submit it directly to Taiwan’s representative office in Myanmar; otherwise, it will be deemed that the registration qualifications are not met, and those who have been allocated will have their original admission qualifications revoked.

(5) A photocopy of the tenth-grade high school graduation certificate of the old Myanmar high school system (or other certification document that can prove the completion of the tenth grade of a Myanmar high school) and the original and English translation of the transcripts of the last three academic years, and attach the first- and second-year original grade transcript of a Myanmar regional university and its English translation. If the student did not complete the sophomore year or dropped out of the junior year in Myanmar, a relevant certificate proving that

the student has not progressed to the senior year should be attached. If the previously issued academic certificate has only been verified and stamped by the recommending unit or school designated by the OCAC, you can still apply if it has not been verified by the Ministry of Foreign Affairs of Myanmar and our representative office in Myanmar, but you must sign an academic qualification verification affidavit (the format is in the attachment 6); at the latest, you must complete Myanmar school academic qualification verification before applying for a visa to Taiwan and submit it directly to our representative office in Myanmar. Otherwise, it will be deemed that the registration qualifications are not met, and those who have been allocated will have their original admission eligibility revoked.

◆ Things to note in Thailand:

- (1) Applicants in Thailand who do not have the nationality of the Republic of China must have Thai nationality.
- (2) Applicants who do not have a high school diploma from a Chinese high school in Northern Thailand must take a subject test. The Northern Thailand Subject Test is scheduled to be held in the beginning of April 2025. The test date (time), test location and exam admission ticket issuance matters will be notified separately by the unit accepting the application. Candidates should take the examination with their admission ticket. If you have lost your admission ticket and need to apply for a reissue, please go to the examination office at the examination center to apply for a reissue on the day of the examination.
- (3) The Northern Thailand subject test time, subjects and score calculation methods are as follows:

Item	Explanation
Exam subject	Mandarin, English, Math
Score calculation method	1. Total test score. If there is an absence from the exam, the grade for that subject will be calculated as zero. 2. Those who are absent from all examination subjects will not be allocated

- ◆ When items (3) and (4) of the above foreign language documents are replaced by photocopies they must be translated into Mandarin (English documents are exempt from translation). The photocopies and translated documents must be verified by an overseas Taiwan government agency or by an OCAC Culture Center or the recommending unit designated by the OCAC. All forms submitted will not be returned. As for official documents, they must still be presented to the school for review upon arrival in Taiwan.

All the afore-mentioned forms must be submitted in full when registering, and must be verified and sealed by an overseas Taiwan government agency, a Culture Center of the OCAC or the recommending unit designated by the OCAC. Documents that are not required by regulations do not need to be submitted. All forms filled out by the applicant must be filled out in traditional Chinese characters. Those whose application do not meet the requirements in the prospectus will not be allocated, and applicants may not request supplementary submission retroactive recognition or renewal for any reason.

If the documents are incomplete, incompletely filled out, or the photocopy is unclear, or the application has not been verified and signed by an overseas Taiwan government agency, a Culture Center, or the recommending unit designated by the OCAC, it will be handled in accordance with the regulations and no further notification will be given for supplementation and correction to improve the time effectiveness of overseas students coming to Taiwan to enroll. If any the documents submitted are found to be forged, used or altered, admission eligibility will be revoked; for those who have already registered, their student status will be revoked and no relevant academic certificate will be issued; if it is discovered after graduation, the school will revoke their graduation eligibility, and demand return of or cancel the degree certificate.

- D. Things to note when filling in application form, filling in school department applications, and uploading your information:

- (1) Applicants should first go to the registration website of this Program (website: <https://student.oivtp.org/>) to log in their basic personal information and fill in the application, then, print out various application forms (including application forms) and go to the application location to register. If the applicant is unable to log in information on the website, he or she can photocopy the attached format of this prospectus and go to the application processing unit to obtain an application form to fill out. All details listed in the “application form” and “school department application form” must be filled in clearly one by one. When filling in your Mandarin and English name and date of birth, you must make sure it is consistent with what is stated on your identity document and graduation certificate. Your English address and email address must be printed.
- (2) If students with disabilities want to apply to study in Taiwan, they must fill in the type and degree of the disability accurately in the application form, first understand and evaluate whether each school department can provide learning aids and daily care measures according to different types and level of needs and use it as a reference for filling school applications to avoid not being able to attend school smoothly.
- (3) Applicants can fill in up to 43 school department applications in sequence on the application form. The number and order of filling in school department applications have a great relationship to allocation. It is recommended to make good use of the opportunity of 43 applications. Do not concentrate on applying for certain school departments, and it is not advisable to only fill in 1 or 2 applications. For those who obtain a paper application form from the application processing unit and fill in the application order (non-application online), leaving the application field blank means that you do not choose to fill in the application. Each application order filled in must not be repeated, otherwise it will be classified as an invalid application. Duplicate application orders will be automatically deleted. Applicants are not allowed to raise objections. Once the registration is completed, it cannot be changed, so please be careful.
- (4) If any of the information filled in the application form is concealed or false, or violates the provisions of this prospectus, admission will not be granted; for those who have already enrolled, their student status will be revoked and no relevant academic certificate will be issued; if it is discovered after graduation, the student will not be admitted. The school will revoke the graduation qualification and demand return of or cancel the degree certificate.
- (5) For the collection, processing and use of personal data of applicants, please refer to Appendix 1 of this prospectus Information on Collection, Processing and Utilization of Personal Data of Students Registered for the Overseas Youth Vocational Training Program (OYVTP).
- E. Postage and telecommunications fees paid to the unit that accepts the application are limited to US\$30 per person (subject to the OCAC’s announcement), equivalent in the local currency. The unit that accepts the application may waive or reduce the fee at its discretion. However, if the fee is increased, it must be approved by the OCAC. The above fees are only used for postage and telecommunications charges for sending application forms and may not be used for other purposes. If there is any surplus, the overseas Taiwan government agency should pay the remaining balance directly to the national treasury.
- F. After the recommending unit designated by the OCAC accepts the application and checks the endorsement, the application form should be sent to an overseas Taiwan government agency of for verification; the last batch of application forms should be sent to the OCAC within 3 working days from the application deadline. After acceptance and review, an overseas Taiwan government agency should send it by registered airmail or express delivery to the Department of Overseas Compatriot Students Affairs of the OCAC on the 15th floor, No. 5 Xuzhou Road, Taipei City, the Republic of China within 5 working days. If it is sent after the time limit or has incomplete documents, it will not be accepted and extension of submission cannot be applied for.

III. Allocation principle

- A. Applicants holding academic certificates from Myanmar and those who have graduated from unregistered Chinese high schools in northern Thailand should take the subject test, and their test scores must meet the minimum admission standards decided by the OCAC at an allocation meeting.
- B. After the applicant's application materials (including scores) are transferred to each school department application school and department for verification and ranking, the application will be processed based on the enrollment quota of each school and department, the minimum class size, the verification and ranking results of each school, and the application order of each student.
- C. The OCAC will hold an allocation meeting to confirm the admission list. If necessary, in order to increase students' chances of enrolling, a high allocation operation can be carried out.
- D. The minimum number of students in a class shall be determined in accordance with the "Instructions for Schools Enrolling Students for the Overseas Youth Vocational Training Program".
- E. Announcement of admission:
 - (1) The admission list is scheduled to be announced in June. Please go to the OCAC's website (<https://www.ocac.gov.tw>) or each enrolling school to check the list.
 - (2) The "Admission Notice" will be printed by each school and sent to overseas Taiwan government agencies by letter from the OCAC for transfer to the student. If students admitted through distribution do not receive the "Admission Notice" before the end of August, please contact the admitted school directly for reissue.
 - (3) If you have any doubts about this admissions process, you should state the specific reasons in writing and submit supporting materials to the OCAC before August 31, 2025. The OCAC will handle it in accordance with the prospectus and relevant regulations, and within one month reply; if necessary, the relevant units may be asked to provide explanations. The OCAC will not handle unnamed complaints.

IV. Regulations relating to admission and coming to Taiwan

- A. School start date: University starts school in September. For details, please refer to the dates set in the admission notices of each school. All students who are allocated a scholarship must arrive in Taiwan before the start of the semester and go through the admission procedures with their admission notice. Any student who has not applied or has not been admitted after applying will not be eligible for admission.
- B. Those who have been approved and allocated but are unable to come to Taiwan to enroll as scheduled due to unforeseen circumstances must send the original admission notice to the school where they were admitted for cancellation and will not be allowed to retain their admission eligibility.
- C. Students coming to Taiwan to study should follow the following regulations:
 - (1) For foreign passport holders, please present your passport (valid for more than 6 months), 2 2-inch color bust photos with white background from within 6 months, and visa application form (please go to the website of the Bureau of Consular Affairs of the Ministry of Foreign Affairs first (website: <https://www.boca.gov.tw>) Click on visa/online application form area/general application form, fill in each field in order, download, print and sign), admission notice, admission permit, recent health examination certificate issued within 3 months by the Ministry of Health and Welfare or a foreign qualified hospital recognized by an overseas Taiwan government agency in the country of residence (for details of examination items, please see the website of the Centers for Disease Control: <https://www.cdc.gov.tw>/Click "International Travel and Health"/Foreigner Health Management/Health Examination for Foreign Degree Students (including Mainland Students)/Residence or Settlement Health Examination Item List; the abbreviated URL is <https://gov.tw/sYT>) and other relevant supporting documents required by an overseas Taiwan government agency to apply for a residence visa (FC visa), and use the "Foreign and Overseas Chinese, Mainland China, Hong Kong and Macao, Nationals without registered household in the Taiwan Area Students Online Application System" to apply for a foreign

residence permit within 30 days after entering Taiwan. The National Immigration Agency (NIA) service stations will no longer accept applications by counter visits. (If you have any questions when applying, please call the system customer service: +886-2-2796-7162 or the consultation service hotline for foreigners in Taiwan: +886-800-001-990). If there is no foreign hospital recognized by the Ministry of Health and Welfare in the place where the overseas compatriot lives, they can contact an overseas Taiwan government agency and follow the local visa procedures. When overseas compatriot students holding Thai passports apply for a visa at the representative office in Thailand and enter Taiwan's airports or ports due to allocation, they must submit proof of Thai citizenship.

- (2) As a national without household registration in Taiwan, you should prepare (1) application form (submit 1 photo, in accordance with the national identity card specifications) at the place of residence (2) proof of identity of the place of residence or place of residence (3) Taiwan passport or other documents that are sufficient to prove that you have Taiwan nationality (4) Police record certificate of the place of residence or place of residence (minors are exempt from the requirement if their place of residence has not been issued or will not be issued) (5) Health examination certificate issued by a qualified foreign hospital designated by the Ministry of Health and Welfare or recognized by an overseas Taiwan government agency in the country of residence in the last 3 months (for details of examination items, please see the website of the Centers for Disease Control Ministry of Health and Welfare: <https://www.cdc.gov.tw> / Click "International Travel and Health"/Foreigner Health Management/Health Examination for Foreign Degree Students (including Mainland Students)/Residence or Settlement Health Examination Item List; the abbreviated URL is <https://gov.tw/sYT>). Admission notice and other relevant supporting documents. Apply to an overseas Taiwan government agency for transfer to the NIA for issue a single-entry permit and a copy of the Taiwan Residence Permit. (6) Students without household registration in Taiwan who hold a Taiwanese passport and a valid stay permit should apply online through the "Foreign and Overseas Chinese, Mainland China, Hong Kong and Macao, Nationals without registered household in the Taiwan Area Students Online Application System" before the stay period expires. They must upload their admission notice and proof of enrollment.
- (3) Those who have original household registration in Taiwan, have gone through the (exit) relocation registration, and have not lost the nationality of the Republic of China or the identity of a person of the Taiwan Area, they have entered the country for more than 3 months with a passport of the Republic of China or entry certification document, they should within 30 days, go to the household registration office at the place of residence to register move-in (entry) and apply for a national identity card at the same time. Documents required: 1. Passport of the Republic of China (or entry certification document), national identity card, seal (or signature). 2. 1 photo or digital photo taken within the last 2 years that meets specifications (National ID card photo specifications can be checked at the "Department of Household Registration, Ministry of the Interior" website <https://www.ris.gov.tw/app/portal/187> , those who submit digital photos should go to the Department of Household Registration of the Ministry of the Interior website - Online Application Service - National Identity Card - National Identity Card Image Upload <https://www.ris.gov.tw/app/portal/765> to upload digital photos), and the household registration list of the place of moving. 3. If you are a single household, you should also provide proof of single household such as the house ownership certificate or the latest housing tax bill (a summary of migration registration documents can be obtained from the "Global Information Network of the Department of Household Registration of the Ministry of the Interior" website <https://www.ris.gov.tw/documents/data/2/3/4/3508b6de-3168-44b6-8834-98c3ccc27212.pdf> download query).
- D. Those who have not obtained Level A2 in the TOCFL or have studied Mandarin for 480 hours in a certified overseas Chinese school when registering for this Program should make up the study hours before the end of the first school year.

V. Estimation of fees (all amounts in TWD)

- (1) Subsidy part of the OCAC: To encourage overseas young people to return to Taiwan to study professional skills and learn skills, each student will be subsidized with part of the tuition fee per semester. The amount is subject to the annual budget of the OCAC, and will be handed over to the school where the program is held for overall program planning to support students in completing their studies.
 - (2) School fees: Detailed admission school prospectus specific provisions (Appendix 2).
 1. Tuition and miscellaneous fees and collection and payment fees.
 2. Agency fee.
 3. Dormitory fees.
 4. Internship material fee.
- E. In accordance with the provisions of the National Health Insurance Act, overseas compatriot students who have stayed in Taiwan for 6 consecutive months or have left the country once for less than 30 days shall be eligible for the National Health Insurance Scheme from the date when their actual stay is 6 months after deducting the number of days they spent outside Taiwan. the amount of health insurance premiums payable shall be handled in accordance with relevant regulations. However, overseas compatriot students from poor backgrounds may obtain a Chinese or English certificate of hardship issued by an overseas Taiwan government agency or recommending unit, overseas compatriot school, overseas compatriot group, or other organization or unit (not an individual) before coming to Taiwan, and apply to the school where they attend; If they are eligible after upon review by the school, the OCAC will subsidize one-half of the deductible for national health insurance premiums. In addition, after arriving in Taiwan and before enrolling in National Health Insurance, you may participate in the Medical Insurance for Overseas Compatriot Students in accordance with the operating regulations. Students must bear half of the premium themselves, and the OCAC will subsidize half of it.

VI. Other matters to note

- A. A man is of military service age from January 1 of the following year when he reaches the age of 18, and no longer eligible on December 31 of the year when he reaches the age of 36. (conscript). All men of military service age with the nationality of the Republic of China who have registered residence in Taiwan are obliged to perform military service during their years eligible to serve; regardless of whether their residence registration has moved abroad or they have nationality of another country, they must hold a passport of the Republic of China when entering and leaving Taiwan; overseas compatriot men eligible for military service who entered the country with foreign passports will still be counted as staying in Taiwan based on their entry and exit records. Those who entered the country with foreign passports without status as an overseas compatriot are still listed as eligible for military service despite having dual nationality; when they are drafted according to law, they are restricted from leaving the country until they fulfill their military service obligations. Males eligible for military service born between 1994 and 2004 are required to undergo 4 months of military training for standing military service; males born after 2005 are required to serve 1 year of active military service.
- B. Overseas compatriots who have existing or original household registration in Taiwan and have the status of overseas compatriot eligible for military service should apply for a deferment during schooling. After graduation or leaving school, if the reasons for deferment disappear, the relevant regulations on returned overseas compatriot military service shall apply. However, students who were born between 1994 and 2004 and are enrolled in colleges and universities may apply to the township (town, city, or district) office where they have their registered residence before November 15 of each year after enrolling in college according to their wishes to receive military training for standing military service during the summer vacation for two consecutive years, they. In addition, if you no longer have the status of an overseas compatriot during schooling, graduation or after leaving school, the general domestic regulations for males eligible for military service shall apply. For inquiries regarding military service, please contact the

Department of Conscription Administration of the Ministry of the Interior (tel: +886-2-85013943, website: <https://www.nca.gov.tw/>).

- C. Parents of overseas students under the age of 18 should designate a relative or friend in Taiwan as the guardian. Applicants are required to find a guardian in Taiwan (those who are related will be given priority, or those who can represent the parents and be able to exercise guardianship rights).
- D. After enrolling, students who are ordered to drop out or be expelled from school due to bad conduct or poor academic performance must return to their original place of residence at their own expense.
- E. After coming to Taiwan to enroll, all matters related to score examination, suspension of study, and transfer will be handled in accordance with relevant regulations. Students who have been allocated and enrolled and voluntarily transfer to other schools due to poor academic adaptability or personal interests should register themselves to take the transfer examination for the sophomore or junior year of a general university.
- F. Overseas compatriot students with a record of allocation are not allowed to transfer or advance to any level of cram school and further training schools (colleges), air universities, colleges and universities that provide return-to-education bachelor's degree classes, in-service master's degree classes, and other special courses that are only held at night and during regular holidays. However, this does not apply to those who have obtained legal residence status in Taiwan other than for the purpose of studying. However, those who transfer or advance to such schools or course on their own will have their overseas compatriot status terminated. Anyone who violates the provisions of the preceding paragraph will have his or her transfer or entry to higher level student status revoked and no relevant academic certificate will be issued. If the violation is discovered after graduation, the school shall revoke his/her graduation qualification and recover or cancel his or her degree certificate.
- G. Holders of residence visas must apply for alien residence permits and extensions at the service station of the NIA at the place of residence after entering. Things to note when overseas students apply for an alien residence permit and extend their residence are as follows:
 - (1) Those who apply for an alien residence permit for the first time:
 - 1. Overseas compatriot students who enter the country for the first time and have not registered: The notice of admission (admission notice) should be attached, and a residence permit with a validity period of 6 months will be issued first. After registration, a supplementary period of 6 months will be issued; the fee will be charged for 1 year validity.
 - 2. Overseas compatriot students who have registered when entering the country for the first time: must submit supporting documents such as the notice of admission, proof of enrollment or registered student ID card, and will be issued a residence permit with a one-year validity period; a fee for the one-year validity period will be charged.
 - (2) Those who extend their stay during the period of study: they must present their student ID card or proof of enrollment and will be issued an alien residence permit with 1-year validity period; a 1-year validity fee will be charged.
 - (3) Those who want to apply for an extension of residence after graduation: If necessary, after graduation, overseas compatriot students may attach graduation certificates and apply for an extension of residence for one year from the month of graduation (before the expiration of the residence period). If it is still necessary before the extension expires, you may apply for an extension once more, and the total extension period is up to 2 years.
- H. The online application system for foreign and expatriate national students without household registration in Mainland China, Hong Kong and Macao now allows students to apply for residence permits by themselves. Please make more use of it. The website is: <https://coa.immigration.gov.tw/coa-frontend/student/> entry.
- I. In line with the country's New Southbound Policy, the Centers for Disease Control of the Ministry of Health and Welfare commissioned National Taiwan University Hospital to establish the "New Southbound Personnel Health Service Center" to provide a health consultation channel for people traveling to and from the region. The contact information is as follows:

Center website: <https://www.newsouthhealth.org.tw>; the abbreviated URL is <https://is.gd/3fhOSe>

E-mail: newsouthhealth@gmail.com; Tel: +886-2-23123456#66607

- J. To ensure the care and safety of students, all Four-year Academia Cooperative Degree Overseas Youth Vocational Training Program students must live in the school dormitory. If they seek out accommodation nearby for internship after their sophomore year, they need to apply to the school, and the school should assist in confirming safety and reasonableness of rent and record for management.
- ◆ If the documents submitted are forged, used or altered, their admission qualifications will be revoked; those who have already registered will have their student status revoked, no relevant academic certificates will be issued, and they will have to return to their original place of residence at their own expense.
 - ◆ If an overseas compatriot student eligible for military service and with overseas compatriot status endorsement, graduates from a foreign senior high school or above, and then returns to the country to study at a school of the same grade or lower than the original grade, he does not comply with the "[Conscription Regulations for Naturalized Aliens & Returning Overseas Chinese](#)" Paragraph 2, Article on conditions for deferral of school fees.
 - ◆ Men of military service age who have the nationality of the Republic of China and have registered residence in Taiwan should enter and leave the country with a passport of the Republic of China; if they enter the country with a foreign passport and are still subject to military conscription according to law, they should be restricted from leaving the country until they fulfill their military service obligations.
 - ◆ If you do not register for school after arriving in Taiwan, or if you have suspended school, dropped out of school, or have graduated, you must return to your place of residence and are not allowed to apply for a visa in Taiwan for other reasons. Those who drop out for any reason must leave school within 10 days, complete exit procedures and return to their place of residence. You must provide your own travel expenses when you come to Taiwan and when your studies have expired or when you leave school for any reason and return to your place of residence.
 - ◆ During the period of studying in Taiwan, I am willing to pay fees on time according to regulations and bear all the fees I should pay.
 - ◆ Overseas compatriot students are not allowed to work illegally or engage in activities that are inconsistent with the permitted purpose while studying in Taiwan. Anyone who violates the law by engaging in activities inconsistent with the purpose of the visa, illegal work, or holding forged or altered documents, etc. will be prosecuted in accordance with the law.

**OCAC Four-year Academia Cooperative Degree
Overseas Youth Vocational Training Program (OYVTP)
Notice on the collection, processing and use of person registering student personal data**

In accordance with the "Personal Data Protection Act" (the Act), to ensure the protection of your personal data, privacy and rights, please read carefully the "Notice on the collection, processing and use of person registering student personal data" drawn up by the Overseas Community Affairs Council (OCAC) in accordance with Articles 8 and 9 of the Act. (if you are under 18 years old, please inform your legal representative or guardian of the following content).

- A. Name of organization: OCAC, the unit entrusted by the OCAC to assist in handling the admissions process for this program (including examinations and pre- allocation), and each admissions school.
- B. Purpose of collecting personal information:
1. Handling examinations related to the enrollment for the **Overseas Youth Vocational Training Program**. (the Program) (134_{notes}, including the public name list), providing academic results, test scores, enrollment, distribution, and certification of use of information and communication services (135), information (communication) and database management (136), student (student) data management (158), academic research (159) and other purposes necessary for enrollment or with the consent of registered students.
 2. To provide accurate allocation of admissions to the program, the OCAC must conduct statistics and analysis on the collected test scores and grades. The statistical data or explanatory text of the analysis results shall be presented for use for allocation and internal research, and the OCAC shall announce statistical data and explanatory text based on need, but this will do not involve information about specific individuals.
 3. The OCAC will collect follow-up data collection for relevant academic research, educational research, statistical research and analysis for subsequent tracking of allocation results.
- C. Personal information collection method
1. Obtained directly through personal information filled in in writing or for online registration or when individually uploading information to the department for review. After you register, the system will retain the personal information you provide for the purpose of conducting qualification reviews, allocation exams, and allocation and admission-related operations.
 2. In order to confirm that your status as an overseas compatriot student meets the requirements of the "Regulations Regarding Study and Counseling Assistance for Overseas Chinese Students in Taiwan," part of your personal information will be retrieved from the NIA from your entry and exit records. The qualification review will be conducted by the OCAC, the Overseas Joint Admissions Committee, and the recruiting schools.
 3. To complete the registration and submission process, your application form must be sent to the application acceptance unit in accordance with the regulations (such as: the overseas offices of the Republic of China, Culture Centers of the OCAC, the annual regional recommending units of the OCAC, etc.). Registration is completed upon delivery.
 4. When you receive allocation and admission, your personal information will be transferred by the OCAC to the participating universities.
- D. Categories of data collected
- Directly collected data includes that for identifying the individual (C001 note), For identification in government documents (C003), Personal description (C011), Immigration situation (C033), leisure activities and interests (C035) School record (C051), Qualifications or skills (C052), Participant record (C057). Content includes: Chinese and English name, gender, ID number, date of birth, passport number, education information, contact number, address, email address, parents' Chinese and English names, examination number, etc., all are required fields. Test scores and grades are determined based on the score calculation method you choose.

E. Personal Data Processing and Utilization

1. Period of use of personal data: apart from the personal data storage period from the date of your registration to the date of taking the test, the period required to complete the above collection purposes is the period of use.
 2. Regions where personal data is used: Taiwan (including Penghu, Kinmen, Matsu and other regions), various overseas offices of the Republic of China, OCAC Culture Centers, the OCAC's annual regional recommending unit, the region of processing and use with the authorization of candidates and the location of the unit where the results are extracted or verified.
 3. Subjects of personal data use: In addition to the OCAC, it also includes relevant cooperative units that assist in completing the above collection purposes, including overseas agencies of the Republic of China, the Ministry of Education, the OCAC (including Culture Centers), and the OCAC's annual regional recommending units, the NIA, universities and colleges of the Republic of China, the Overseas Joint Admissions Committee, and academic research institutions (units) authorized by this association.
 4. Personal data use method: Notifications of test assignments, test scores, allocation results and related information of this program are provided to relevant cooperative units for test assignments, admissions, allocation, registration, inspection and other operations, candidate (or guardian) contact, necessary disclosure for the credibility of the examination and academic research and other necessary methods to help achieve the above collection purposes.
- F. If you fail to provide true, correct, and complete personal information, it will result in inability to register, inability to contact in emergencies, or inability to deliver the admission notice, etc., which will affect your rights to participate in enrollment, follow-up examinations and admission.
- G. You may inquire about or request to read in accordance with the provisions of the Act during the period of data use; request to make a copy; request to supplement or correct; request to stop collection, processing or use; request to delete. You may exercise the above rights by contacting the OCAC in writing, fax, telephone, etc. The contact information for you to exercise relevant rights and contact us is: Tel: +886-2-23272679; Fax: +886-2-23566377; Email: ocacsg@ocac.gov.tw.
- H. Please confirm that the personal information you provide is true and correct; if it is untrue or needs to be changed, please immediately submit the relevant supporting documents to the OCAC for correction.
- I. The OCAC may provide personal information or related information to relevant competent authorities or judicial authorities in accordance with legal provisions or requirements of competent authorities or judicial authorities in accordance with the law.
- J. If you request the OCAC to stop collecting, processing or using your personal information, or request to delete your personal information, the OCAC must also cancel your application form for coming to Taiwan, admission notice, etc. If you are already studying in Taiwan, your student status will be cancelled. If your request hinders the performance of our duties or the completion of the above collection purposes, or causes the OCAC to violate laws or requirements of competent authorities, the OCAC may continue to collect, process, use or retain personal information.

Note: Specific purposes and category codes of personal data of the Personal Data Protection Act promulgated by the Ministry of Justice

**2025 Academic Year Industry-Academia Collaboration
Overseas Youth Vocational Training Program (OYVTP) Bachelor Degree
Admission Prospectus**

School	China University of Technology			
Program	Department of Tourism and Leisure Management- Overseas Youth Vocational Training Program 4-year Bachelor Degree			
Program Abbreviation	Department of Tourism and Leisure Management			
Program Description	This program aims to cultivate intermediate-level management and professional technical talents in the tourism and leisure industry as its educational goal. It establishes the content and constructs the fundamental competency indicators that technology university graduates should possess. Additionally, it aims to achieve the goal of employment upon graduation. The curriculum primarily consists of two-course modules: "Dining Accommodation Management" and "Leisure Tourism Management." During the internship period, students' rights and obligations, including wage and benefits, are protected by formal contracts. Students participating in internship programs can seamlessly transition to employment in advance, and they can earn both seniority and academic credits.			
Graduate Career Development	Hotel receptionist, Housekeeper, Room Supervisor, Chef, Restaurant Manager, Waiter/Waitress			
Mandarin courses (online or on-campus courses)	In the 1st and 2nd academic year, we provide practical Mandarin training courses on-campus to improve students' Mandarin skills. The school will help students pass the A2 level of TOCFL (Test of Chinese as a Foreign Language) after one academic year training.			
Professional and Technical Training Courses (including internship subjects)	<u>General Courses</u> 1. Practical Chinese (I) 2. Science and Technology for Sustainable Environment 3. Internship	<ol style="list-style-type: none"> Off-campus internships are conducted from the 2nd to the 4th year, with approximately 3 internship days per week. The maximum internship hours are up to 17.77 hours per week. The internship allowance is calculated based on the Basic Wage stipulated in the Labor Standards Act, calculated by hours worked. The minimum wage in 2025 is TWD190 per hour. Institution: Internship opportunities : Din Tai Fung, Ambassador Hotel Hsinchu,
-------------------	---

	Taiwan Haidilao Hotpot, TTFB company, Lakeshore Hotels, Fullon Hotels & Resorts, FDC Hotels & Resorts Group, Tofu Restrant Group, TANOSHIMI GROUP LTD., Joliidar Enjoy Recreation, etc.
Work-study During Semester	Students who wish to work in Taiwan (either on campus or off campus) are required to apply for and obtain a work permit before starting a job. With the exception of the winter and summer vacations, students' total working hours shall not exceed 20 hours per week.
Employment Counseling	<ol style="list-style-type: none"> 1. A workplace seminar is arranged for senior students, and every year around May, the College of Management organizes a large-scale job fair. This event invites over 40 well-known domestic companies, allowing senior students nearing graduation to directly connect with employers. 2. Companies evaluate students based on their internship performance, with outstanding performers being offered full-time positions. This initiative aims to showcase the outcomes of industry internships, creating a win-win situation for the school, industry, and students.
Further Education After Graduation	<ol style="list-style-type: none"> 1. Graduates of this program can participate in the admissions examinations for master's programs in each school in accordance with relevant regulations. 2. Students of this program can apply for dual degree program offered by the school and overseas sister schools or continue their studies at sister schools after graduation in accordance with regulations.
Scholarships and Financial Aids	<ol style="list-style-type: none"> 1. The OCAC provides the following grants and subsidies: <ol style="list-style-type: none"> (1) The first two years of tuition grant: each new student will be granted TWD 20,000 per semester during the first two academic years. (2) Excellent Conduct and Academic Performance Scholarship: Available for those with excellent academic performance. Those who have obtained certificates and competition awards will be awarded TWD 6,000 per person per academic year. (3) Medical Insurance for Overseas Compatriot Students (6 months): A total of TWD 600 will be subsidized (before students enroll in National Health Insurance). (4) Healthcare: Every student is required to enroll in National Health Insurance and pay the insurance premiums. Students who have proof of economic hardship (or financial difficulty document) are subsidized 50 % of the insurance premiums. (Current monthly subsidy is TWD 413). (5) Work-study subsidy and economic hardship scholarship: TWD 2,500 per month for students who are offered work-study opportunities. (6) Emergency Aid: Provided on a case-by-case basis. 2. Scholarship and subsidies provided by the University:

Items	Amount	Eligibility requirements
First Academic year (1 st - 2 nd semester)	Tuition Waiver per semester by half	Apply to study in the "Four-year Industry-Academic Cooperation Bachelor's Overseas Youth Technical Training Course" of the Department of Tourism and Leisure Management of the school
Second to Fourth Academic year (3 rd -8 th semester)	Tuition Waiver per semester by half	(1)Have passed Test of Chinese Language Proficiency (TOCFL) B1 or above. (2)Complete one academic year of Chinese language certificate tutoring courses, with less than 1/3 missed class hours. (3)The overall average academic score in the previous semester was 80 points (inclusive) or above or ranked in the top 30% of the class.
Second to Fourth Academic year (3 rd -8 th semester)	Scholarship TWD5,000 per semester	(1)Have not passed Test of Chinese Language Proficiency (TOCFL) B1 or above. (2)Complete one academic year of Chinese language certificate tutoring courses, with less than 1/3 missed class hours. (3)The overall average academic score in the previous semester was 80 points (inclusive) or above or ranked in the top 30% of the class.

Tuition and Fees (TWD)	1. School fees					
	Academic Year	Tuition*	Miscellaneous	Other fees*	Accommodation fees*	Total
	1 st year First semester (The amount after deducting OCAC grant)	8,120	4,393	3,940	12,000-14,000	28,453-30,453
	1 st year Second semester (The amount after deducting OCAC grant)	8,120	4,393	8,296	12,000-14,000	32,809-34,809

Employment Counseling	<ol style="list-style-type: none"> 1. A workplace readiness seminar is organized for senior students, and every April, a large-scale job fair is held with over 40 well-known domestic companies participating. This event provides graduating seniors the opportunity to connect directly with employers. The school updates employment information monthly at https://reurl.cc/eylkaR and occasionally hosts job-matching information sessions and career guidance seminars. 2. This department focuses on professional knowledge in "cloud big data applications" and "IoT integration technologies," combining a practical, technology-oriented educational approach. Based on industry trends, we design core courses that align with the technical demands of the industry to meet real-world employment needs. Currently, we have full-time internship collaborations with companies such as ASE Technology, Compal Electronics, HTC, Nanya Technology, and AAEON Technology, 			

	<p>providing students with strong pre-employment training. The employment rate of graduates is 97.9%, successfully cultivating talented professionals in the ICT industry.</p>								
<p>Further Education After Graduation</p>	<ol style="list-style-type: none"> 1. Graduates of this program can take the entrance exam of the master's degree programs of other universities following relevant regulations. 2. Students in this program can also apply for dual degree programs offered through the university's overseas partner institutions in countries and regions such as the United States, Japan, South Korea, Indonesia, and Vietnam, or pursue further studies at these sister universities after graduation, following the required procedures. Partner institutions include Metropolitan State University and the University of Central Arkansas in the United States; Nihon University and the University of Marketing and Distribution Sciences in Japan; Hansae University in South Korea; and Maranatha Christian University in Indonesia. 								
<p>Scholarships and Financial Aids</p>	<ol style="list-style-type: none"> 1. The OCAC provides the following grants and subsidies: <ol style="list-style-type: none"> (1) The first two years of tuition grant: each new student will be granted TWD 20,000 per semester during the first two academic years. (2) Excellent Conduct and Academic Performance Scholarship: Available for those with excellent academic performance. Those who have obtained certificates and competition awards will be awarded TWD 6,000 per person per academic year. (3) Medical Insurance for Overseas Compatriot Students (6 months): A total of TWD 600 will be subsidized (before students enroll in National Health Insurance). (4) Healthcare: Every student is required to enroll in National Health Insurance and pay the insurance premiums. Students who have proof of economic hardship (or financial difficulty document) are subsidized 50 % of the insurance premiums. (Current monthly subsidy is TWD 413) . (5) Work-study subsidy and economic hardship scholarship: TWD 2,500 per month for students who are offered work-study opportunities. (6) Emergency Aid: Provided on a case-by-case basis. 2. **2025 Academic Year Industry-Academia Collaboration
Overseas Youth Vocational Training Program (OYVTP) Bachelor Degree
Admission Prospectus**

School	China University of Technology			
Program	Department of Marketing and Logistics- Overseas Youth Vocational Training Program 4-year Bachelor Degree			
Program Abbreviation	Department of Marketing and Logistics			
Program Description	<p>The curriculum is designed from a consumer perspective, integrating horizontal and vertical efficiencies in the industry. Beginning with the development of service and quality awareness, it covers fundamental business service concepts such as service quality management, store operations management, marketing management, distribution management, and logistics management. Practical internships are arranged with reputable companies, aiming to nurture professionals with integration capabilities in the service and distribution sectors. The recommended partners include prominent retail, distribution, and food service companies, as well as logistics and marketing firms.</p> <p>Through collaboration with well-known companies and structured internship arrangements, students can begin taking elective internship courses starting from their sophomore year.</p> <p>With the combined academic training and practical experience provided by the Department of Marketing and Logistics at China University of Technology, students will be able to successfully achieve the core competency indicators.</p>			
Graduate Career Development	Store Operations Manager, Retail Store/Shop Assistant/Brand Counter Staff, Market Development/Research/Analysis Personnel, Warehouse Management Staff, Logistics Manager, etc.			
Mandarin Courses (online or on-campus courses)	In the 1st and 2nd academic year, we provide practical Mandarin training courses on-campus to improve students' Mandarin skills. And the school will help students pass the A2 level of TOCFL (Test of Chinese as a Foreign Language) after one academic year training.			
Professional and Technical Training Courses (including internship subjects)	<u>General Courses</u>	<u>Professional Courses</u>		<u>Internship and Practical Courses</u>
	1. Practical Chinese (I)	1.Economics (I)	35.Sales Creativity	1.Business Professional Internship (I)

**2025 Academic Year Industry-Academia Collaboration
Overseas Youth Vocational Training Program (OYVTP) Bachelor Degree
Admission Prospectus**

School	China University of Science and Technology		
Program	Department of Electrical and Information Engineering-Overseas Youth Vocational Training Program 4-year Bachelor Degree		
Program Abbreviation	Department of Electrical and Information Engineering		
Program Description	Aiming to cultivate talents in the field of information communication and electrical network engineering with expertise in IoT technology and electromechanical integration, this program collaborates with businesses to provide practical training for students in the establishment of information communication and electrical network engineering. The goal is to nurture high-quality professionals in this field for domestic companies and to serve as a backbone for these companies in developing overseas markets, thereby enhancing their international competitiveness.		
Graduate Career Development	Mechatronics Integration Development Engineer, Semiconductor Equipment Engineer, IoT Application Engineer, Power Electronics Engineer		
Mandarin courses (online or on-campus courses)	In response to the language proficiency requirements for students' learning and communication with faculty, in addition to the professional courses covering knowledge and skills needed in the electrical and information industry, students in this program also undertake general education courses with a focus on Mandarin learning, which are enhanced by the on-campus Chinese Language Center. These courses include Elementary Chinese (I) and (II), Elementary Chinese Conversation (I) and (II), Advanced Chinese (I) and (II), and Advanced Chinese Conversation (I) and (II).		
Professional and Technical Training Courses (including internship subjects)	<u>General Courses</u> 1. Everyday English (I) 2. Everyday English (II) 3. Practical English (I) 4. Practical English (II) 5. Elementary Chinese (I) 6. Elementary Chinese (II) 7. Elementary Chinese Conversation (I) 8. Elementary Chinese Conversation (II) 9. Advanced Chinese (I) 10. Advanced Chinese (II) 11. Advanced Chinese Conversation (I) (II) 12. Workplace Ethics	<u>Professional Courses</u> 1. Electrical and Information Technology 2. Introduction to Computers 3. Overseas Youth Vocational Training Program (OYVTP) Bachelor Degree
Admission Prospectus**

School	China University of Science and Technology		
Program	Department of Aviation Mechanical Engineering- Overseas Youth Vocational Training Program 4-year Bachelor Degree		
Program Abbreviation	Department of Aviation Mechanical Engineering		
Program Description	In the post-pandemic and decreasing birthrate era, Taiwan's aviation and machinery industries face a shortage of professional technicians for maintenance and manufacturing. Department of Aviation Mechanical Engineering aims to cultivate professional technicians for maintenance and manufacturing. The Overseas Youth Vocational Training School emphasizes industry-university cooperation to cultivate professional technicians well-qualified for domestic and foreign aviation and machinery industries.		
Graduate Career Development	Aircraft Maintenance Engineer, Aircraft Parts Manufacturing Engineer		
Mandarin courses (online or on-campus courses)	In response to the needs of language proficiency for learning and communication, students in this class also have general courses strengthened specially by the Chinese Language Center on campus: Chinese Writing and Application (I), Chinese Writing and Application (II), in addition to professional courses with knowledge and skills required in the aviation and machinery industries.		
Professional and Technical Training Courses (including internship subjects)	<p><u>General Courses</u></p> <ol style="list-style-type: none"> 1. Humanities and Arts Domain 2. Applied Society Domain 3. Natural Science Domain 4. Chinese Writing and Application (I) 5. Chinese Writing and Application (II) 6. English for Workplace (I) 7. English for Workplace 	<p><u>Professional Courses</u></p> <ol style="list-style-type: none"> 1. Introduction to Aviation Industry 2. Aviation Workplace Health Promotion 3. Applied Mathematics 4. Engineering Mechanics 5. Thermodynamics 6. Aviation English (I) 7. Aviation English (II) 8. Advanced Aviation English 9. Basic Electricity 10. Basic Concepts of Computers 	<p><u>Internship and practical Courses</u></p> <ol style="list-style-type: none"> 1. Aircraft Engine 2. Aircraft Engine Assembly/Disassembly Practice 3. Composite Materials and Fundamentals 12. Technology of Composites Manufacture and Repair 13. of Composite Materials 14. Non-Destructive Inspection 15. Design of Machine Elements & Practice 16. Machining and Practice (I) 17. Machining and Practice (II) 18. Mechatronics and Practice 19. Factory Management Practice 20. Extracurricular Internship (I) 21. 20. Extracurricular Internship (II)
Internship	1. Off-campus internship will start from the senior year (the 4 th academic year), 5 internship days per week. 2. Allowance: About 30,000 per month 3. Institution: Hang Her Enterprise Co., Ltd.		
Work-study During Semester	Students who wish to work in Taiwan (either on campus or off campus) are required to apply for and obtain a work permit before starting a job. With the exception of the winter and summer vacations, students' total working hours shall not exceed 20 hours per week.		
Employment Counseling	1. The school provides employment matching channels, career counseling seminars, airline recruitment on campus, and airline talent selection briefings. 2. Internship organizations retain qualified talent, with the current TOEIC requirement set at 400 points or above.		
Further Education After Graduation	1. After completing the studies and obtaining a bachelor's degree, students can pursue further education with master's degrees in Aircraft Systems, Aviation, Mechanical Engineering, or Avionics 2. Students can also apply for the relevant master's program at the overseas partner		

universities or any other universities such as Mississippi State University, Minnesota State University, University of California Monterey Bay, University of Pittsburgh, British Columbia Institute of Technology (Canada), University of South Australia, Osaka International University, and others.

**Scholarships
and Financial
Aids**

1. The OCAC provides the following grants and subsidies:
 - (1) The first two years of tuition grant: each new student will be granted TWD 20,000 per semester during the first two academic years.
 - (2) Excellent Conduct and Academic Performance Scholarship: Available for those with excellent academic performance. Those who have obtained certificates and competition awards will be awarded TWD 6,000 per person per academic year.
 - (3) Medical Insurance for Overseas Compatriot Students (6 months): A total of TWD 600 will be subsidized (before students enroll in National Health Insurance).
 - (4) Healthcare: Every student is required to enroll in National Health Insurance and pay the insurance premiums. Students who have proof of economic hardship (or financial difficulty document) are subsidized 50 % of the insurance premiums. (Current monthly subsidy is TWD 413).
 - (5) Work-study subsidy and economic hardship scholarship: TWD 2,500 per month for students who are offered work-study opportunities.
 - (6) Emergency Aid: Provided on a case-by-case basis.

2. Scholarship and subsidies provided by the University:

Items	Amount	Eligibility requirements
scholarship per semester	TWD 2,000-4,000	Academic performance ranking top 3 in the class
Emergency Aid	In accordance with the regulations for local students	
On-campus part-time job opportunity	On the premise that it does not affect students' academic studies, the school can arrange for overseas compatriot students to work-study in various units on campus.	
Mandarin Proficiency Scholarship	Those who pass TOCFL A2 level or above can apply for this scholarship (TWD 2,000)	

Tuition and Fees (TWD)	1. School fees					
	Academic Year	Tuition*	Miscellaneous	Other fees*	Accommodation fees*	Total
	1 st year First semester (The amount after deducting OCAC grant)	0	6,915	3,829	0	10,744

Overseas Youth Vocational Training Program (OYVTP) Bachelor Degree
Admission Prospectus**

School	Central Taiwan University of Science and Technology			
Program	Department of Safety Health and Environmental Engineering- Overseas Youth Vocational Training Program 4-year Bachelor Degree			
Program Abbreviation	Department of Safety Health and Environmental Engineering			
Program Description	<p>This program follows the global trend toward net-zero carbon emissions and aligns with national policies to promote sustainable industrial development. The curriculum focuses on environmental protection, occupational safety and health, and fire safety. It aims to cultivate professionals with both theoretical knowledge and practical skills in net-zero sustainability, environmental engineering, safety and health, and fire engineering.</p> <p>Each semester, we offer certification training to enhance employability. In the fourth year, a full-year internship is arranged to further improve students' job readiness and facilitate seamless employment. During internship, all wages, benefits, labor rights, and obligations are regulated and protected by formal contracts.</p>			
Graduate Career Development	Environmental Engineer, Environmental, Health, and Safety (EHS) Engineer, Occupational Safety and Health Administrator (OSH Administrator), Occupational Safety Engineer, Carbon Manager, Sustainability Manager, Fire Protection Engineer.			
Mandarin courses (online or on-campus courses)	<ol style="list-style-type: none"> The school's Mandarin courses include Chinese (I), Chinese (II), Advanced Chinese (I), and Advanced Chinese (II). Courses are offered based on students' Mandarin proficiency levels to provide appropriate learning opportunities. The Chinese Language Center of the university provides consultation hours with Mandarin teachers and offers local student partners to assist with academic and daily life adaptation.

<p style="text-align: center;">Internship</p>	<ol style="list-style-type: none"> 1. Practical Internship (I), In the first semester of the fourth year, students can participate in an off-campus internship for 16 weeks, working five days a week for a total of 640 hours. The company is required to provide an internship allowance (in accordance with the minimum wage set by labor standards law and relevant insurance). 2. Practical Internship (II), In the fourth year of the second semester, students can undertake an external internship for 14 weeks, five days a week, totaling 560 hours. The company is required to provide an internship allowance that meets the basic wage and related insurance in accordance with the Labor Standards Act. 3. The internship allowance is a monthly wage of TWD30,000 to TWD38,600. For those coming from afar, accommodation is provided for free or charged at a discounted employee rate. 4. Internship Institution : <ul style="list-style-type: none"> Dayu Environmental Technology Co., Ltd. Chung Yuang Electrical Consulting Co., Ltd. Taiwan Fire Corp. Main-Link Engineering Consultants Co., Ltd. Taiwan Hon Chuan Enterprise Co., Ltd. Data Test Scientific Co., Ltd. Hota Industrial Mfg. Co., Ltd. Free Air Engineering Construction Co., Ltd Wei Zheng Construction Co., Ltd. Hui Min Environmental Tech Corp. Forest Water Environmental Engineering Co., Ltd. Kong Chou Construction Co., Ltd Rei Ju Construction Co., Ltd. Te Chang Construction Co., Ltd. Lee Ming Construction Co., Ltd Jla Shin Construction Co., Ltd Da-Cin Construction Co ., Ltd
<p>Work-study During Semester</p>	<p>Students who wish to work in Taiwan (either on campus or off campus) are required to apply for and obtain a work permit before starting a job. With the exception of the winter and summer vacations, students' total working hours shall not exceed 20 hours per week.</p>
<p>Employment Counseling</p>	<ol style="list-style-type: none"> 1. School's Employment Matching Channels and Employment Counseling Seminars : <ol style="list-style-type: none"> (1) In the second semester of the junior year, 15 to 25 job recruitment seminars will be held, where various companies will focus on the practical internship content for the entire senior year, mechanisms for transitioning to full-time employment upon internship completion, qualification requirements for internships and subsequent full-time positions, employee wage and benefits, career prospects, corporate

	<p>culture, and other relevant information for students.</p> <p>(2) Students apply to the department office for manufacturers they are interested in. The department office arranges interviews, and upon passing the interview, a tripartite internship contract is signed by the manufacturer, the school, and the student. The student then begins the internship according to the terms of the contract.</p> <p>(3) During the internship period, arrange for the department teachers to visit the internship site at least once and provide online support and guidance as needed.</p> <p>(4) Before the end of the internship, the department will inquire with the company about whether they will offer the interns a permanent position, and confirm that the wage and benefits for the permanent position are better than those of the internship. If the student agrees to stay on, a match will be facilitated.</p> <p>(5) A job matching fair will be held for senior students in their second semester who have not participated in internships or who participated in internships but were unable to secure a full-time position.</p> <p>2. Retention Mechanism for Internship Organizations :</p> <p>(1) Internship organizations provide internship opportunities for students in this department under the premise of a seamless transition to full-time positions upon graduation. During the internship period, professional mentors from the industry will be assigned to guide students in developing the necessary professional skills in the internship setting.</p> <p>(2) Internship organizations will evaluate students based on various performance metrics in the internship setting, such as attendance, learning attitude, workplace ethics, professional growth, and completion of tasks, to determine whether they will be retained and transitioned to full-time positions.</p>
<p>Further Education After Graduation</p>	<p>1. Graduates of this program may apply to various master's programs in accordance with relevant regulations to obtain a master's degree, such as the Master's Program in Environmental and Safety Engineering, the Master's Program in Occupational Safety and Health, the Master's Program in Environmental Engineering, the Master's Program in Environmental Engineering and Science, and the Master's Program in Environmental Engineering and Management.</p> <p>2. There are no overseas partner universities.</p>
<p>Scholarships and Financial Aids</p>	<p>1. The OCAC provides the following grants and subsidies:</p> <p>(1) The first two years of tuition grant: each new student will be granted TWD 20,000 per semester during the first two academic years.</p> <p>(2) Excellent Conduct and Academic Performance Scholarship: Available for those with excellent academic performance. Those who have obtained certificates and</p>

competition awards will be awarded TWD 6,000 per person per academic year.

- (3) Medical Insurance for Overseas Compatriot Students (6 months): A total of TWD 600 will be subsidized (before students enroll in National Health Insurance).
- (4) Healthcare: Every student is required to enroll in National Health Insurance and pay the insurance premiums. Students who have proof of economic hardship (or financial difficulty document) are subsidized 50 % of the insurance premiums. (Current monthly subsidy is TWD 413).
- (5) Work-study subsidy and economic hardship scholarship: TWD 2,500 per month for students who are offered work-study opportunities.
- (6) Emergency Aid: Provided on a case-by-case basis.

2. Scholarship and subsidies provided by the University:

Item	Amount	Quotas	Eligibility requirements	Remarks (Description of schedule, subjects, conditions, etc.)
Scholarship for OYVTP	TWD 5,000	5 students	Second-year student	<ul style="list-style-type: none"> • Students who ranked $\leq 10\%$ of the class in the previous semester and had no demerits. • Scholarships will be directly deducted from the tuition bill.
Scholarship for OYVTP	TWD 5,000	5 students	Third-year student	<ul style="list-style-type: none"> • Students who ranked $\leq 10\%$ of the class in the previous semester and had no demerits. • Scholarships will be directly deducted from the tuition bill.
Scholarship for OYVTP	TWD 5,000	5 students	Final-year student	<ul style="list-style-type: none"> • Students who ranked $\leq 10\%$ of the class in the previous semester and had no demerits. • Scholarships will be directly deducted from the tuition bill.

Tuition and Fees (TWD)

1. School fees

Academic Year	Tuition*	Miscellaneous	Other fees*	Accommodation fees*	Total
1 st year First semester (The amount after deducting OCAC grant)	17,910	13,730	5,620-7,620	7,600-8,800 (Including deposit fee)	44,860-46,060
1 st year Second semester (The amount after deducting OCAC grant)	17,910	13,730	8,776-10,776	7,600-8,800 (Including deposit fee)	48,016-51,216
2 nd year (Amount per semester) (The amount after deducting OCAC grant)	17,910	13,730	8,776-10,776	7,600-8,800 (Including deposit fee)	48,016-51,216
3 rd to 4 th year (Amount per semester)	37,910	13,730*	8,776-10,776	7,600-8,800 (Including deposit fee)	68,016-71,216

*Note:

- (1) The standards for tuition and miscellaneous fees are based on the 'Regulations for Tuition and Miscellaneous Fees of Colleges and Universities,' calculated according to the government-approved fees
- (2) Conditional scholarships and grants from the school for the second to fourth academic years are not included.

	<p>(3) If students complete their internship at an external organization for the entire semester, the miscellaneous fees for that semester will be charged at a 20% discount</p> <p>(4) Others: Book fees range from TWD3,000 to TWD5,000 per semester, depending on the textbooks specified by instructors. The materials fee is TWD0 per semester, and there are no internship or laboratory fees. The computer usage fee is TWD1,200, charged only in the first semester of the first year. The internet usage fee is TWD300 per semester, and the personal accident insurance fee is TWD520 per semester. Overseas compatriot student medical insurance premiums TWD600 totally at the first 6 months. From the 7th month onwards, National Health Insurance premiums TWD826 per month.</p> <p>(5) Accommodation Fee: TWD5,600 for a shared room (6-8 people) or TWD6,800 for a 5-person suite for females. The electricity fee for air conditioning will be charged separately based on actual usage. A security deposit of TWD2,000 (including cleaning fees and electricity) is collected each academic year.</p> <p>(6) Accommodation fee during Winter and Summer Vacations : TWD 1,400 (for a shared room with 6-8 people) or TWD 1,700 (for a 5-person suite for females); air conditioning electricity fees are charged separately based on actual usage. A TWD500 deposit is collected each academic year (includes cleaning and electricity fees).</p> <p>2. Living expenses (estimated) : TWD5,000-10,000/per month</p> <p>3. Additional charge:</p> <p>(1) Certification examination fees: charged based on actual costs.</p> <p>(2) Health check-up fees, residence permit fees, and work permit fees: charged based on actual costs.</p> <p>(3) Inter-class activities, company visits, personal internship supplies, and self-practice, charged based on actual costs.</p>

**2025 Academic Year Industry-Academia Collaboration
Overseas Youth Vocational Training Program (OYVTP) Bachelor Degree
Admission Prospectus**

School	Yuanpei University of Medical Technology		
Program	Department of Food and Beverage Management- Overseas Youth Vocational Training Program, 4-year Bachelor's Degree		
Program Abbreviation	Department of Food and Beverage Management		
Program Description	<p>The educational goal of this special class is to combine theory with practice and cultivate professionals with the ability to start their own business, catering business management, and healthy catering deployment and design. Practical business management and practical skills training, and the introduction of healthy catering concepts and independent hygiene management, let students fully grasp the pulse of the catering industry. The curriculum planning is oriented towards employment functions, and industry-university cooperation resources are quite abundant, which can enhance students' employment competitiveness. When students graduate from this special class, they will have the following core competencies:</p> <p>Possess professional knowledge in catering management Have practical ability in catering preparation Have product design and innovative application capabilities Have work responsibility and teamwork ability</p>		
Graduate Career Development	Food and Beverage Management Supervisor, Restaurant Hygiene Manager, Culinary Chef (Various Cuisines), Pastry/Baking Chef, Bartender/Bar Service Staff, Coffee Barista, Food and Beverage Service Staff		
Mandarin Courses (online or on-campus courses)	<p>The OCAC provides Mandarin learning courses through distance digital teaching. The courses in the first and second semesters are all planned to be 2 credits and 2 hours of Chinese courses. The content will depend on the students' level, and Chinese courses suitable for students' learning will be provided.</p> <p>The Yuan Peihua Chinese Center provides consultation hours for Mandarin teachers and provides learning companions for local students to help them adapt to study and life.</p>		
Professional and Technical Training Courses (including internship)	<u>General Courses</u> 1. Chinese Literature (I)(II) 2. Chinese Conversation (I)(II)	<u>Professional Courses</u> 1. Food Principles 2. Catering nutrition 3. Menu Design 4. Purchase and to Control the Cost of Food and Beverage	<u>Internship and practical Courses</u> 1. Chinese food practice 2. Western Culinary 3. Coffee Industry and Practical

subjects)	3. English (I)(II) 4. Liberal arts and general knowledge 5. General knowledge of functions	5. Food & Beverage Safety and Sanitation 6. Food & Beverage Service Skill 7. Mass Food Production(I)(II) 8. Restaurant Operation and Management Practice (I)(II) 9. Food packaging and cultural creativity 10. A Restaurant Facilities and A Layout 11. Hospitality Human Resource Management 12. Management of Food and Beverage to Protect Environment 13. Financial Management in Food and Beverage 14. Marketing Management in Food and Beverage 15. **2025 Academic Year Industry-Academia Collaboration
Overseas Youth Vocational Training Program (OYVTP) Bachelor Degree
Admission Prospectus**

School	Hungkuang University		
Program	Department of Food Science and Technology-Overseas Youth Vocational Training Program 4-year Bachelor Degree		
Program Abbreviation	Department of Food Science and Technology		
Program Description	Opening a Baking and Food Culinary Arts Program for Overseas Youth, with the primary focus on the following training: 1. Practical Training in Food Processing 2. Training in Baking Food Products 3. Food Hygiene and Safety Concepts		
Graduate Career Development	Food and Bakery Product Operation Technician, Product Development Technician, Quality and Hygiene Control Officer		
Mandarin Courses (online or on-campus courses)	In addition to the Chinese Reading and Writing (I) and (II) courses offered by this program, a preliminary Mandarin proficiency test will be conducted at the beginning of enrollment. Based on the students' proficiency levels, they will be placed in appropriate classes for additional Mandarin support, with courses such as Basic Mandarin and Advanced Mandarin available.		
Professional and Technical Training Courses (including internship subjects)	<p><u>General Courses</u></p> <ol style="list-style-type: none"> Human Spirit Chinese Reading and Writing I, II Liberal Arts Category Social Science Category Application Programming Design <p><u>Practicum Courses</u></p> <ol style="list-style-type: none"> Biscuit Practice Basic Bread Practice Basic Cake and Pastry Practice Advanced Chinese 	<p><u>Professional Courses</u></p> <ol style="list-style-type: none"> Nutrition Food Microbiology with Experiments Food Processing with Experiments Food Additives with Experiments Food Chemistry with Experiments Food Hygiene and Safety Introduction to Management Consumer Psychology Food Analysis and Inspection with Experiments 	<p><u>Professional Elective Courses</u></p> <ol style="list-style-type: none"> Beverage Preparation Professional Japanese Professional English (I) Marketing Sensory Evaluation with Experiments Food Packaging Food Instrumental Analysis with Experiments Food Baking and Practice (II) Food Chemistry (II)

	<p>Traditional</p> <p>5. Wheat Food and Practice</p> <p>6. Chinese Traditional Rice Food Practice</p> <p>7. Advanced Food Baking and Practice</p> <p>8. Advanced Cake and Pastry Practice</p> <p>9. Exotic Cakes and Pastry Practice</p>	<p>Off campus professional internship: sophomore, junior, and senior years (off campus professional internship), 40 hours of internship per week, with internship allowance</p>	<p>10. Food Chemistry with Experiments (II)</p> <p>11. Fermentation</p> <p>12. Brewing Techniques with Experiments</p> <p>13. Food Factory Management</p> <p>14. Color Theory</p> <p>15. Pattern Design</p> <p>16. Visual Communication Graphic Design</p>
<p>Internship</p>	<ol style="list-style-type: none"> The internship follows a "66-shift rotation," taking place in the second semester of the second, third, and fourth years. Each semester lasts 4.5 months, with 40 hours per week over 18 weeks. The internship allowance follows the basic wage under the Labor Standards Act. If calculated hourly, the 2025 minimum wage is TWD190 per hour. If calculated monthly, the minimum compensation for fulfilling the legal maximum of 40 working hours per week is TWD 28,590 per month. Internship institutions: ISABELLE (TAIWAN) CO., LTD., Fu-Man Enterprise Co., Ltd., COMESTIBLES MASTER CO., LTD 		
<p>Work-study During Semester</p>	<p>Students who wish to work in Taiwan (either on campus or off campus) are required to apply for and obtain a work permit before starting a job. With the exception of the winter and summer vacations, students' total working hours shall not exceed 20 hours per week.</p>		
<p>Employment Counseling</p>	<p>The school holds an experience-sharing session each semester for international students staying in Taiwan. During their senior year, the school also organizes a briefing session, providing information on employment opportunities in Taiwan and promoting relevant regulations for students.</p>		
<p>Further Education After Graduation</p>	<ol style="list-style-type: none"> Graduates of this program may take master's entrance exams at various universities in accordance with relevant regulations, such as for the Department of Food Science and Technology or the Department of Nutrition. Students in this program can apply for dual-degree programs with overseas sister schools in places like the United Kingdom and Japan, or pursue further studies at sister schools after graduation. These include Middlesex University and University of Cumbria in the UK, as well as Japan University of Economics. The application process must be completed according to the prescribed procedures. 		

**Scholarships
and Financial
Aids**

1. The OCAC provides the following grants and subsidies:
 - (1) The first two years of tuition grant: each new student will be granted TWD 20,000 per semester during the first two academic years.
 - (2) Excellent Conduct and Academic Performance Scholarship: Available for those with excellent academic performance. Those who have obtained certificates and competition awards will be awarded TWD 6,000 per person per academic year.
 - (3) Medical Insurance for Overseas Compatriot Students (6 months): A total of TWD 600 will be subsidized (before students enroll in National Health Insurance).
 - (4) Healthcare: Every student is required to enroll in National Health Insurance and pay the insurance premiums. Students who have proof of economic hardship (or financial difficulty document) are subsidized 50 % of the insurance premiums. (Current monthly subsidy is TWD 413).
 - (5) Work-study subsidy and economic hardship scholarship: TWD 2,500 per month for students who are offered work-study opportunities.
 - (6) Emergency Aid: Provided on a case-by-case basis.

2. Scholarship and subsidies provided by the University:

Items	Amount	Eligibility requirements
Scholarship for International Students	Level A: TWD 50,000 Level B: TWD 30,000 Level C: TWD 10,000 Level D: TWD 5,000	After enrollment, students can apply for the scholarship based on their semester performance (with academic records). Applications for the previous semester are accepted every semester except for the final semester.
Scholarship for New Students with Outstanding English Proficiency Scores	Level A: TWD 400,000 (distributed over eight semesters, TWD 50,000 per semester) Level B: TWD 200,000 (distributed over eight semesters, TWD 25,000 per semester)	Those who achieve a score of 900 or above on the NEW TOEIC test or an equivalent English proficiency test before admission will be classified as Level A, while those with a score of 800 or above or an equivalent English proficiency score will be classified as Level B

*Note:

- (1) The comparison of English proficiency scores for Level A and Level B is

as follows:

Level	GEPT	NEW TOEIC	TOEFL-iBT	BULATS	IELTS
Level A	Advanced (includes initial and advanced tests)	900	100	ALTE Level 3, 70	6
Level B	Advanced Initial Test	800	95	ALTE Level 3, 65	5.5

(2) Standards and Notes for Continued Scholarship Disbursement:

This scholarship is distributed evenly over eight semesters during the period of study. In the first semester of the first academic year, the scholarship for that semester can be directly received. For subsequent semesters, students must meet the following requirements to continue receiving the scholarship for each semester:

- I. Recipients of the Level A scholarship upon admission must rank in the top five of their class or achieve an average score of 85 or above in the previous semester, or win an award in a national English competition.
- II. Recipients of the Level B scholarship upon admission must rank in the top ten of their class or achieve an average score of 80 or above in the previous semester, or win an award in a national English competition.

Tuition and Fees (TWD)

1. School fees

Academic Year	Tuition*	Miscellaneous	Other fees*	Accommodation fees*	Total
1 st year First semester (The amount after deducting OCAC grant)	39,051	12,885	12,850 - 15,350	8,500- 18,000	73,286- 85,286
1 st year Second semester (The amount after deducting OCAC grant)	39,051	12,885	9,206	8,500- 18,000	69,642- 79,142
2 nd year (Amount per semester) (The amount after deducting OCAC grant)	39,051	12,885	9,206	8,500- 18,000	69,642- 79,142
3 rd to 4 th year (Amount per semester)	39,051	12,885	9,206	17,000- 36,000	69,642- 79,142

*Note:

	<p>(1) The standards for tuition and miscellaneous fees are based on the 'Regulations for Tuition and Miscellaneous Fees of Colleges and Universities', calculated according to the government-approved fees.</p> <p>(2) For enrollment each semester, the full tuition fee must be paid upfront. The tuition grants of TWD 80,000 for the first and second academic years will be evenly disbursed over four semesters into the student's personal account.)</p> <p>(3) Others: Book fees for each semester depend on the course. Material fees range from TWD 2,500 to 5,000 per semester. Computer usage fee TWD 810 per semester. Internet usage fee TWD 200 per semester. Student accident insurance fee TWD 740 per semester. The practical course uniform costs approximately TWD 8,000. Overseas compatriot student medical insurance premiums TWD600 totally at the first 6 months. From the 7th month onwards, National Health Insurance premiums TWD 826 per month.</p> <p>(4) Accommodation Fee:.(1) Contracted Dormitory: TWD 14,000 to TWD 34,000 per semester (1-2 person per room, pricing depends on the actual room type, excluding utilities, a TWD 1,000 deposit is required upon check in and will be refunded upon check out, all come with internet access). (2) Female Dormitory: TWD 8,500 per semester for a four person room, excluding utilities charges; air conditioning charges are based on actual usage and are billed separately. Accommodation fees during winter and summer breaks are not included.</p> <p>2. Living expenses (estimated) : TWD8,000/per month</p> <p>3. Additional charge:</p> <p>(1) License examination and medical check-up fees: Subject to actual fees.</p> <p>(2) For inter-class activities, company visits, personal internship tools, and self-practice, any expenses incurred will be paid based on the actual amount.</p>

**2025 Academic Year Industry-Academia Collaboration
Overseas Youth Vocational Training Program (OYVTP) Bachelor Degree
Admission Prospectus**

School	Cheng Shiu University		
Program	Department of Mechanical Engineering-Overseas Youth Vocational Training Program 4-year Bachelor Degree		
Program Abbreviation	Department of Mechanical Engineering		
Program Description	<p>This training program greatly enhances collaboration between industry and academia and gathers teaching and research resources from the industry. This program has three main goals:</p> <ol style="list-style-type: none"> 1. To cultivate mechanical engineering professionals who meet industrial development needs. 2. To develop talents with professional knowledge, practical skills, innovative thinking, and cultural literacy. 3. To foster individuals with professional ethics, teamwork skills, and social responsibility. 		
Graduate Career Development	Production Engineer, Process Engineer, Equipment Engineer, Quality Control Engineer		
Mandarin Courses (online or on-campus courses)	<p>Required Mandarin courses are in-school, with four-hour basic Mandarin classes each week during the first academic year, totaling 8 credits. The course content will be adjusted based on students' proficiency levels.</p> <p>Additionally, the school established a "Mandarin Center" in 2022 as a foundation for international students to learn Mandarin. Beyond the in-school classes, the center also offers Mandarin certification prep courses, online classes, and other educational resources to enhance students' Mandarin proficiency.</p>		
Professional and Technical Training Courses (including internship subjects)	<p><u>General courses</u></p> <p>First Year</p> <ol style="list-style-type: none"> 1. Applied Chinese Listening I 2. Applied Chinese Listening II 3. Applied Chinese Reading I 4. Applied Chinese 	<p><u>Professional courses</u></p> <p>First Year</p> <ol style="list-style-type: none"> 1. Introduction to Mechanical Engineering 2. Calculus I 3. Physics I 4. Computational Thinking and Creative Programming 5. Statics 	<p><u>Internship and practical courses</u></p> <p>Second Year</p> <ol style="list-style-type: none"> 1. Industry Practical Internship I 2. Industry Practical Internship II <p>Third Year</p>

	<p>Reading II</p> <p>Second Year</p> <ol style="list-style-type: none"> 1. Practical Chinese Conversation 2. Practical English Conversation 3. Health and Life 4. Industry Practical Internship III 2. Industry Practical Internship IV <p>Fourth Year</p> <ol style="list-style-type: none"> 1. Industry Practical Internship V 2. Industry Practical Internship VI
--	--	--	---

		<ul style="list-style-type: none"> 7. Principles and Applications of Robotic Arms 8. Welding Engineering and Applications 9. Plastic Processing 10. Engineering Statistics and Quality Management 11. Optomechanical Systems 	
Internship	<ul style="list-style-type: none"> 1. Period and working hours: Starting in the second academic year, an industry internship course is planned, offering 6 credits per semester. Semesters 3, 4, and 5 are required, while semesters 6, 7, and 8 are elective. Students work 3-4 days per week, up to 8 hours per day, with a maximum of 26 hours weekly. All work must be finished by 10 PM. 2. Allowance: In compliance with the wage regulations under the Labor Standards Act, part-time work is paid hourly, while internships are paid monthly, calculated based on the number of days worked. 3. Internship institutions: Hua Young Machinery Co., Ltd., Joules Miles Co., Ltd., Drewloong Precision, Inc. 		
Work-study During Semester	Students who wish to work in Taiwan (either on campus or off campus) are required to apply for and obtain a work permit before starting a job. With the exception of the winter and summer vacations, students' total working hours shall not exceed 20 hours per week.		
Employment Counseling	<ul style="list-style-type: none"> 1. Professional Learning Support System: The school has established a seven-part support system focused on understanding learning aptitudes, enhancing course guidance, implementing consultation and early warning systems, providing remedial teaching, offering certification support, and creating a student learning portfolio. The aim is to foster mentorship and strengthen practical skills. 2. Employment Guidance System: <ul style="list-style-type: none"> (a) Led by the Alumni and Career Development Center, activities such as further studies guidance, elite lectures, and career fairs help students understand job market trends and prepare early. (b) Through internships, students gain practical skills and may be prioritized for employment upon graduation. (c) Students are encouraged to join industry-academia collaboration projects. 		
Further Education After Graduation	Graduates of this program may take entrance exams for master's programs at this or other universities in accordance with relevant regulations. Examples include the Graduate Institute of Mechatronics Engineering, Master's Program in Mechanical Engineering, Master's Program in Industrial Engineering and Management, and Master's Program in Mold and Die Engineering.		

**Scholarships
and Financial
Aids**

1. The OCAC provides the following grants and subsidies:
 - (1) The first two years of tuition grant: each new student will be granted TWD 20,000 per semester during the first two academic years.
 - (2) Excellent Conduct and Academic Performance Scholarship: Available for those with excellent academic performance. Those who have obtained certificates and competition awards will be awarded TWD 6,000 per person per academic year.
 - (3) Medical Insurance for Overseas Compatriot Students (6 months): A total of TWD 600 will be subsidized (before students enroll in National Health Insurance).
 - (4) Healthcare: Every student is required to enroll in National Health Insurance and pay the insurance premiums. Students who have proof of economic hardship (or financial difficulty document) are subsidized 50 % of the insurance premiums. (Current monthly subsidy is TWD 413).
 - (5) Work-study subsidy and economic hardship scholarship: TWD 2,500 per month for students who are offered work-study opportunities.
 - (6) Emergency Aid: Provided on a case-by-case basis.

2. Scholarship and subsidies provided by the University:

Items	Amount	Eligibility requirements
Scholarship for Outstanding Academic Performance	TWD 80,000 (40,000 1 st academic year, 20,000 2 nd academic year, and 20,000 3 rd academic year)	Students with qualifying grades and conduct scores after committee approval.
Emergency financial aids for students	Considered case by case.	

**Tuition and

Work-study During Semester	Students who wish to work in Taiwan (either on campus or off campus) are required to apply for and obtain a work permit before starting a job. With the exception of the winter and summer vacations, students' total working hours shall not exceed 20 hours per week.
Employment Counseling	<p>1. The Employment and Alumni Services Division of the school will assist students in securing employment both domestically and internationally through various means, including organizing employment seminars, job fairs, and holding information sessions on the employment rating system for overseas students seeking to stay and work in Taiwan.</p> <p>2. In collaboration with internship institutions, mechanisms will be established to encourage the retention of interns, thereby increasing their willingness to remain in their positions.</p>
Further Education After Graduation	<p>1. The graduates of this program may, according to relevant regulations, participate in the entrance exams for master's programs at various universities. For example, they can apply to domestic graduate schools related to hospitality, tourism, and food studies, or continue their studies in the graduate program of hospitality management at their current school, among other related fields.</p> <p>2. Course credit waiver is regulated in a memorandum of understanding (MOU): UNIVERSITAS TANJUNGPURA 、 ITB STIKOM BALI 、 SMK TI BALI GLOBAL SINGARAJA 、 SMK TI BALI GLOBAL KARANGASEM 、 SMK TI BALI GLOBAL KLUNGKUNG 、 SMK TI BALI GLOBAL BADUNG 、 MAWAR SHARON CHRISTIAN SCHOOL, etc.</p>
Scholarships and Financial Aids	<p>1. The OCAC provides the following grants and subsidies:</p> <p>(1) The first two years of tuition grant: each new student will be granted TWD 20,000 per semester during the first two academic years.</p> <p>(2) Excellent Conduct and Academic Performance Scholarship: Available for those with excellent academic performance. Those who have obtained certificates and</p>

- competition awards will be awarded TWD 6,000 per person per academic year.
- (3) Medical Insurance for Overseas Compatriot Students (6 months): A total of TWD 600 will be subsidized (before students enroll in National Health Insurance).
 - (4) Healthcare: Every student is required to enroll in National Health Insurance and pay the insurance premiums. Students who have proof of economic hardship (or financial difficulty document) are subsidized 50 % of the insurance premiums. (Current monthly subsidy is TWD 413).
 - (5) Work-study subsidy and economic hardship scholarship: TWD 2,500 per month for students who are offered work-study opportunities.
 - (6) Emergency Aid: Provided on a case-by-case basis.

2. Scholarship and subsidies provided by the University:

Items	Amount	Eligibility requirements
Tuition	TWD18,040 / First Year	Full tuition waiver for the first year (after deducting TWD20,000 subsidy from the OCAC each semester, TWD18,040 will be covered by the university; a minimum attendance rate of 70% in the first semester of the first year is required to qualify for tuition waiver in the next semester)
Entrance Scholarship	TWD5,000	Students who choose Wu Feng University of Science and Technology as their first choice will receive a scholarship of TWD5,000 upon admission.
Chinese Language Proficiency Scholarship	TWD1,000-3,000	For those with TOCFL Chinese proficiency certificates (TWD1,000 for A1 level, TWD2,000 for A2 level, TWD3,000 for B1 and above)
English Language Proficiency Scholarship	TWD5,000	Students with a TOEFL score of 550 or above before admission will receive a scholarship of TWD5,000.
Academic Excellence Scholarship	TWD1,000-2,500	For academically excellent students (TWD2,500 for first place, TWD1,500 for second place, TWD1,000 for third place each semester, with adjustments based on

class size), additional awards for obtaining certificates or winning competitions will be granted according to the university's reward guidelines.

Tuition and Fees (TWD)

1. School fees

Academic Year	Tuition*	Miscellaneous	Other fees*	Accommodation fees	Total

**2025 Academic Year Industry-Academia Collaboration
Overseas Youth Vocational Training Program (OYVTP) Bachelor Degree
Admission Prospectus**

School	HungKuo Delin University of Technology
Program	Department of Hospitality Management- Overseas Youth Vocational Training Program 4-year Bachelor Degree
Program Abbreviation	Department of Hospitality Management
Program Description	<p>The department's educational objective is to cultivate professionals in hospitality and hotel management with competitive service skills. The focus is on enhancing students' employability, including workplace competitiveness, ethics, attitude, and the professional knowledge required for career development, aiming for long-term growth in the hospitality industry.</p> <p>The "Hospitality Management" of the Overseas Youth Vocational Training Program centers on two main courses: "Hospitality Service and Management" and "Hotel Service and Management." It aims to train overseas compatriot students in culinary arts and management within the hospitality sector, fostering innovative entrepreneurial thinking to create new opportunities in the industry. In the culinary field, the program continues foundational education in both kitchen skills and front-of-house service. In hotel management, it emphasizes advanced learning in hotel services and management, ensuring students possess up-to-date employment capabilities.</p> <p>The school's affiliated "Caesar Park Hotels & Resorts" operates eight major hotels in Taiwan, with six located in the northern region: Caesar Park Hotel Taipei, Caesar Park Hotel Banqiao, Caesar Metro Taipei, Just Palace Hotel, arTree Hotel, and Hotel Cham Cham Taipei. These international hotels offer abundant internship resources, providing robust corporate support through joint recruitment, integrated courses, industry-expert teaching, off-campus internships, and employment guidance, achieving seamless integration. Leveraging the resources of the Hung Kuo Group and the local industry connections in Taipei and New Taipei City, the program offers students excellent opportunities for industry internships and practical workplace experiences.</p>
Graduate Career Development	Service Center Attendant, Bartender, Food and Beverage Server, Kitchen Chef, Hotel Housekeeper

<p>Mandarin Courses (online or on-campus courses)</p>	<p>This program offers a one-year curriculum including Practical Chinese (I) and (II), Daily Life Chinese (I) and (II), and language support courses. The school arranges for specialized Mandarin instructors to conduct the classes. These instructors meet the hiring standards set by the Ministry of Education, holding at least a master's degree from domestic or international universities, along with a Ministry of Education certification in Teaching Chinese as a Foreign Language. Alternatively, they may hold a master's degree or higher in Mandarin and Literature, Taiwanese Literature, or related fields, and have completed over 120 hours of teacher training in Teaching Chinese as a Foreign Language at domestic or international universities.</p>		
<p>Professional and Technical Training Courses (including internship subjects)</p>	<p><u>General courses</u></p> <ol style="list-style-type: none"> 1. Practical Chinese I 2. Practical Chinese II 3. 			<ul style="list-style-type: none"> 19. Internship V 20. Tea brewing 21. Internship VI 22. Creative hospitality product
Internship	<ul style="list-style-type: none"> 1. Off-campus internships (I) to (VI) are scheduled from the second to the fourth year of study. Due to curriculum requirements, students participate in domestic off-campus internship programs with 20 hours of internship per week. 2. Partnering companies will provide an internship allowance that is no less than the basic wage (calculated based on the number of internship days divided by the monthly workdays) or calculated according to the basic hourly wage. 3. Internship Institutions: 4. Caesar Park Hotels & Resorts currently has six major hotels in northern Taiwan, including Caesar Park Hotel Taipei, Caesar Park Hotel Banqiao, Caesar Metro Taipei, Just Palace Hotel, arTree Hotel, and Hotel Cham Cham Taipei, all of which are international-grade hotels. 		
Work-study During Semester	Students who wish to work in Taiwan (either on campus or off campus) are required to apply for and obtain a work permit before starting a job. With the exception of the winter and summer vacations, students' total working hours shall not exceed 20 hours per week.		
Employment Counseling	<ul style="list-style-type: none"> 1. Employment counseling seminars are organized, inviting senior managers from the hospitality industry to engage directly with students, providing insights into the local job market. 2. Career seminars and job-matching events are held on campus to create networking opportunities that enhance students' employment prospects in Taiwan. 3. Retention by internship institutions: Two months before the end of the internship, supervisors at the internship institutions evaluate students based on their work attitude (dedication), professional knowledge and skills, teamwork, willingness to learn and adaptability, stability, and stress tolerance. Those who pass this evaluation are offered the opportunity to continue employment. 		
Further Education After Graduation	<p>Graduates of this program may, in accordance with relevant regulations, participate in entrance exams for master's programs in related fields at various universities. Examples include:</p> <ul style="list-style-type: none"> 1. National Kaohsiung University of Hospitality and Tourism: Graduate Institute of Culinary Culture and Innovation, Graduate Institute of Hospitality Management, and the International Master's Program in Hospitality and Tourism (taught in English) 2. <p>Internship</p>	<ol style="list-style-type: none"> 1. Period and working hours: Internships are scheduled in the sophomore, junior, and senior years, with three days of internship per week. 2. The calculation method for internship allowance: The internship allowance is based on the minimum wage stipulated by the Labor Standards Act of Taiwan and is calculated hourly. In 2025, the minimum wage is TWD190 per hour. 3. Internship institutions: Bafang Yunji International Co., Ltd. (Bafang Yunji); BONZA HOTEL; The HO Hotel (Weitai Investment Co., Ltd.)
<p>Work-study During Semester</p>	<p>Students who wish to work in Taiwan (either on campus or off campus) are required to apply for and obtain a work permit before starting a job. With the exception of the winter and summer vacations, students' total working hours shall not exceed 20 hours per week.</p>
<p>Employment Counseling</p>	<ol style="list-style-type: none"> 1. University Employment Assistance <ol style="list-style-type: none"> (1) Employment Matching Channels: The university provides students with internship and employment opportunities through long-term partnerships with industry. An on-campus career counseling center regularly updates and posts job vacancies, and organizes employment matching activities, including campus job fairs and company presentations, allowing students to engage directly with potential employers. (2) Career Counseling Seminars: To help students enhance their competitiveness, the university regularly hosts career counseling seminars covering topics such as resume writing, interview techniques, workplace etiquette, and career planning. These seminars are led by professional instructors or experienced industry professionals and include practical exercises to help students better understand employer expectations and interview preparation. (3) Point System: To improve students' performance in internships and the job market, the university has implemented a point system. Students can earn points by participating in relevant professional certification exams and obtaining certifications during their studies. These points serve as a reference for graduation assessment or internship recommendations, helping students build experience and increase their competitiveness. 2. Retention Mechanisms for Interns <ol style="list-style-type: none"> (1) Performance Evaluation and Retention Recommendations: Internship institutions conduct comprehensive evaluations based on interns' job performance, skill development, and adaptability. For outstanding interns, institutions offer retention recommendations or priority hiring opportunities and design personalized career development plans to encourage them to stay. (2) Enhanced Wage and Benefits: To retain talented interns, institutions provide competitive wages and benefits packages, such as full-time employee benefits,

	<p>performance bonuses, and promotion opportunities, motivating interns to continue their career development within the company.</p> <p>(3) Professional Training and Promotion Opportunities: Internship institutions offer a variety of on-the-job training and skill development courses, allowing interns to continuously learn and grow in their roles. For promising interns, institutions also plan promotion pathways, giving them a clear view of their career advancement prospects and further encouraging them to stay.</p>
<p>Further Education After Graduation</p>	<p>1. Pathways for Further Studies</p> <p>(1) University to Graduate School: Graduates can apply for master’s programs or part-time master's programs in related fields within Taiwan to further their professional knowledge.</p> <p>(2) Industry-University Cooperative Projects: Through projects in partnership with companies or hotels, some schools offer master’s degree opportunities that combine internships with coursework.</p> <p>(3) Programs for International Students: For international students (such as Overseas Compatriot Students), certain schools provide special pathways and support measures to facilitate smooth enrollment.</p> <p>2. Related Graduate Programs</p> <p>(1) Graduate School of Hospitality Management: Focuses on enhancing professional skills in culinary, hotel management, and marketing.</p> <p>(2) Graduate School of Tourism and Leisure Business Management: Emphasizes professional training in the tourism industry, hotel operations, and travel planning.</p> <p>(3) Graduate School of Leisure Industry and Health Management: Concentrates on emerging disciplines that combine the leisure industry with health management.</p> <p>(4) Graduate School of International Tourism and Hotel Management: Focuses on international management, cross-cultural communication skills, and professional knowledge in hotel management.</p> <p>3. Sister Schools for Further Studies or Exchange Programs: Southern University in Korea and Sapporo International University in Japan</p>
<p>Scholarships and Financial Aids</p>	<p>1. The OCAC provides the following grants and subsidies:</p> <p>(1) The first two years of tuition grant: each new student will be granted TWD 20,000 per semester during the first two academic years.</p> <p>(2) Excellent Conduct and Academic Performance Scholarship: Available for those with excellent academic performance. Those who have obtained certificates and competition awards will be awarded TWD 6,000 per person per academic year.</p> <p>(3) Medical Insurance for Overseas Compatriot Students (6 months): A total of TWD 600 will be subsidized (before students enroll in National Health Insurance).</p>

- (4) Healthcare: Every student is required to enroll in National Health Insurance and pay the insurance premiums. Students who have proof of economic hardship (or financial difficulty document) are subsidized 50 % of the insurance premiums. (Current monthly subsidy is TWD 413).
- (5) Work-study subsidy and economic hardship scholarship: TWD 2,500 per month for students who are offered work-study opportunities.
- (6) Emergency Aid: Provided on a case-by-case basis.

Tunku Abdul Rahman (Malaysia), Universiti Malaysia Perlis (Malaysia).

**Scholarships
and Financial
Aids**

1. The OCAC provides the following grants and subsidies:
 - (1) The first two years of tuition grant: each new student will be granted TWD 20,000 per semester during the first two academic years.
 - (2) Excellent Conduct and Academic Performance Scholarship: Available for those with excellent academic performance. Those who have obtained certificates and competition awards will be awarded TWD 6,000 per person per academic year.
 - (3) Medical Insurance for Overseas Compatriot Students (6 months): A total of TWD 600 will be subsidized (before students enroll in National Health Insurance).
 - (4) Healthcare: Every student is required to enroll in National Health Insurance and pay the insurance premiums. Students who have proof of economic hardship (or financial difficulty document) are subsidized 50 % of the insurance premiums. (Current monthly subsidy is TWD 413).
 - (5) Work-study subsidy and economic hardship scholarship: TWD 2,500 per month for students who are offered work-study opportunities.
 - (6) Emergency Aid: Provided on a case-by-case basis.

2. Scholarship and subsidies provided by the University:

Items	Amount	Eligibility requirements
Presidential Award	TWD3,000-5,000	Selection of the best students in each semester
Emergency Bursary	According to the school regulation as the domestic student	
Scholarships for on-campus work-study students	Arranging work-study opportunities for Overseas Compatriot Students throughout different departments of the university without compromising their academic pursuits.	
Scholarships	https://sad.aeust.edu.tw/p/412-1073-4729.php?Lang=zh-tw	

**Tuition and
Fees (TWD)**

1. School fees

Academic Year	Tuition*	Miscellaneous	Other fees*	Accommodation fees*	Total
1 st year First semester (The amount after	0	10,000	2,400	0-15,000 (Air Conditioning is	12,400- 27,400

deducting OCAC grant)				charged extra)	
1 st year Second semester (The amount after deducting OCAC grant)	0	10,000	6,756	0-15,000 (Air Conditioning is charged extra)	16,756-31,756
2 nd year (Amount per semester) (The amount after deducting OCAC grant)	0	10,000	6,756	0-15,000 (Air Conditioning is charged extra)	20,256-31,756
3 rd to 4 th year (Amount per semester)	20,000	10,000	6,756	0-15,000 (Air Conditioning is charged extra)	40,256-51,756

***Note:**

Overseas Youth Vocational Training Program (OYVTP) Bachelor Degree
Admission Prospectus**

School	Asia Eastern University of Science and Technology		
Program	Department of Industrial Management-Overseas Youth Vocational Training Program 4-year Bachelor Degree		
Program Abbreviation	Department of Industrial Management		
Program Description	With the rise of Industry 4.0, the traditional thinking of manufacturing has been gradually transformed into smart manufacturing. Accordingly, this course aims to equip manufacturing professionals with basic managerial skills in both theoretical and practical aspects of "operational process management" (smart factory manufacturing) and "enterprise management decision making" (smart factory management).		
Graduate Career Development	Production Control Specialist, Quality Control Engineer, Process Engineer, Production Line Supervisor, Project Manager, Material Specialist, Inventory Control Specialist, Warehouse Specialist		
Mandarin Courses (online or on-campus courses)	All courses are on-campus, elementary Mandarin(I)(II), Mandarin oral communication, Chinese speaking and writing, Chinese reading, with a total of 18 credits and 504 hours. In addition, students who have not yet reached the A2 level of the Test of Chinese as a Foreign Language (TOCFL) are required to take an additional 90 hours of Mandarin tutorials per semester, which are free of charge.		
Professional and Technical Training Courses (including internship subjects)	<u>General Courses</u> (Required/Elective) <ol style="list-style-type: none"> 1. Elementary Mandarin(I) 2. Elementary Mandarin (II) 3. Mandarin Oral Communication 4. Society And Culture In Taiwan 5. Sport and Health 6. Chinese Speaking and Writing 7. Chinese Reading 8. Overseas Youth Vocational Training Program (OYVTP) Bachelor Degree
Admission Prospectus**

School	Tungnan University
Program	Department of Interior Design- Overseas Youth Vocational Training Program 4-year Bachelor Degree
Program Abbreviation	Department of Interior Design
Program Description	<p>The Department of Interior Design is mainly designed to meet the needs of industrial talents and is divided into two major objectives: "Interior Design" and "Interior Decoration Engineering Management". The curriculum design is closely related to the educational objectives and the cultivation of students' core abilities. In terms of professional course design structure, the department provides students with a step-by-step learning process based on the four-year planning axis. The department places a strong emphasis on practical training, assisting students in obtaining relevant professional certifications to enhance their competitiveness in the job market. Through guided practical project courses and off-campus internships, it combines theory with hands-on experience and strives to integrate industry resources, ensuring that students are proficient in practical skills relevant to the workplace, aligning their abilities with the immediate demands of the industry.</p>

Work-study During Semester	<p>Students who wish to work in Taiwan (either on campus or off campus) are required to apply for and obtain a work permit before starting a job. With the exception of the winter and summer vacations, students' total working hours shall not exceed 20 hours per week.</p>		
Employment Counseling	<ul style="list-style-type: none"> 1. Employment Matching Initiatives: The school implements multiple employment matching channels to help students secure jobs. Campus recruitment events are held regularly, inviting companies from various professional fields to offer internships or full-time positions. Students can interact directly with employers on-site, increasing their chances of success. The school also posts internship opportunities, providing details such as company name, location, wage, job nature, accommodation availability, and insurance information for students to consider. 2. Employment Counseling Seminars: Tailored for students about to graduate or start internships, these seminars cover job search techniques, resume writing (how to highlight personal strengths and tailor resumes to job positions), and interview skills, including interview etiquette, strategies for answering common questions, and body language tips, to help students approach interviews confidently. 3. Talent Retention for Overseas Students: In coordination with government efforts to retain outstanding overseas students and enhance Taiwan's industrial competitiveness, the school's Office of International and Cross-Strait Affairs holds annual residency scoring and post-graduation career pathway seminars every April to 		

	<p>May to support overseas students in planning their careers in Taiwan.</p> <p>4. Talent Retention Mechanisms for Internship Institutions:</p> <p>(1) Professional Certification Guidance: Overseas students are encouraged to obtain internationally recognized professional certifications, such as AutoCAD, Autodesk 3DSMAX, Revit for Architecture, and SketchUp, while in school. This enables graduates to enter the workforce immediately. Partner companies may offer additional allowances based on the certification level and difficulty.</p> <p>(2) Example: Retention Incentives at RSEA Engineering Corporation: Graduates who join RSEA and sign a 5-year service contract are eligible for a bonus after four years, contingent on performance, and an additional bonus at the end of the fifth year. Entry-level wage is approximately TWD39,000, with additional allowances based on project difficulty. The company offers labor, health, and group insurance, along with various benefits and incentives, playing a crucial role in attracting and retaining overseas students and enhancing quality of life and career development.</p>

***Note:**

- (1) Others: Computer Usage Fee TWD 900 per semester (only for the first academic year). Internet Usage Fee TWD100 per semester, Student Group Accident Insurance Fee: TWD 900 per semester (charged according to the actual amount each semester). , Overseas compatriot student medical insurance premiums TWD600 totally at the first 6 months. From the 7th month onwards, National Health Insurance premiums TWD826 per month.
- (2) Accommodation Fee:
 - I. The school provides on-campus dormitory accommodation for students in this program, with a standard 4-person suite. No accommodation fee is charged for the 1st and 2nd semesters of the 1st academic year.
 - II. Starting from the 2nd academic year, the dormitory fee at internship companies ranges from TWD1,000 to TWD9,000 per semester.
 - III. From the 2nd academic year onward, the fee for a standard 4-person suite in the school dormitory is TWD13,000 per semester.
 - IV. The accommodation fee includes dormitory internet, water, and basic electricity charges. Air conditioning is billed based on actual usage, and accommodation fees for winter and summer breaks are charged separately.
 - V. Upon moving in, an additional TWD550 cleaning and key card fee is required. This fee is fully refundable upon checkout if no violations are found during the final inspection.
2. Living expenses (estimated) : TWD5,000/per month
3. Additional charge:
 - (1) Examination and license: Subject to actual charges.
 - (2) Health insurance, student accident insurance, inter-class activities, company visits, personal internship tools, and self-practice expenses are to be paid based on the actual costs incurred.

**2025 Academic Year Industry-Academia Collaboration
Overseas Youth Vocational Training Program (OYVTP) Bachelor Degree
Admission Prospectus**

School	Chienkuo Technology University		
Program	Department of Mechanical Engineering - Overseas Youth Vocational Training Program 4-year Bachelor Degree		
Program Abbreviation	Department of Mechanical Engineering		
Program Description	The curriculum of the special training class is designed to cultivate practical skills such as "precision machining and manufacturing", "mechanical design analysis" and "smart manufacturing". The course content emphasizes the cultivation of practical abilities and meets the needs of the industry. In accordance with the development characteristics of the school, we focus on industry-university cooperation, strengthen internship course matching and corporate collaborative teaching, so as to fully and effectively vertically integrate course matching and industry needs. Student internships focus on cultivating basic professional skills, and the content emphasizes the cultivation of practical abilities, with the goal of cultivating students with professional practical skills.		
Graduate Career Development	Mechanical Engineer, Mechanical Engineer, CNC milling machine engineer, CNC lathe engineer, Quality management engineer, Turning and milling composite engineer, Analytical Engineer, Reverse Engineer		
Mandarin Courses (online or on-campus courses)	<ol style="list-style-type: none"> The OCAC provides Mandarin learning courses through distance digital teaching. The project assists students in Indonesia, Vietnam, Thailand, Myanmar, Philippines and other places to learn Chinese. The relevant instructions are formulated by the school. Chinese course planning: This program includes 5 credits/10 hours of Chinese courses in the first year. In the second year, there are Practical Chinese courses with 2 credits/2 hours, and in the first semester of the third year, there is Chinese Social Life course with 2 credits/2 hours. Additionally, the program is designed Chinese Tutoring Course to enhance students' Mandarin ability. 		
Professional and Technical Training Courses (including internship subjects)	<u>General Courses</u> <ol style="list-style-type: none"> Chinese English Sports & Health (1) Sports & Health (2) Workplace ethics Practical Mandarin 	<u>Professional Courses</u> <ol style="list-style-type: none"> Machinery manufacturing Occupational safety and health, Labor-management relations 	<u>Practical Courses</u> <ol style="list-style-type: none"> Comprehensive processing internship Electrical-auxiliary mechanical drawing Precision measurement and practice,

SWUN YUAN Enterprises Co., Ltd.	Caotun Township, Nantou County																
Work-study During Semester	Students who wish to work in Taiwan (either on campus or off campus) are required to apply for and obtain a work permit before starting a job. With the exception of the winter and summer vacations, students’ total working hours shall not exceed 20 hours per week.																
Employment Counseling	<p>1. School employment matching channels, employment counseling lectures, such as explanations and evaluation systems and other measures</p> <p>(1). Employment matching channels and counseling lectures: After students enter Taiwan, multiple career counseling lectures will be held in the second semester of the first grade, and cooperative vendors will be invited to the school to introduce the company's operating status, work content, wage and benefits, future vision and retention and promotion, etc.</p> <p>(2). Employment counseling lectures: After students enter Taiwan, they will receive workplace ethics and workplace safety lectures, labor relations lectures, etc. before employment internship to facilitate students' smooth employment.</p> <p>(3). Evaluation system and measures: After students enter Taiwan, they will be graded based on their class performance, including teacher ratings, midterm (final) exam scores, absences, rewards and punishments, etc., and companies will be selected based on the scores.</p> <p>2. Talent retention mechanism of internship institutions The talent retention mechanism is roughly divided into six major items:</p>																

	<p>(1). Work absenteeism performance (2). Work attitude: proactive and responsible (3). Efforts to cooperate with the work assigned by the company (4). Ability to communicate well (5). Able to work independently and study hard (6). Other tasks assigned by supervisors, the company will assess each project: divided into 5 equal points (very satisfied, satisfied, ordinary, dissatisfied, very dissatisfied), the assessment score reaches If the score exceeds 20 points, the employee will be retained.</p>															
<p>Further Education After Graduation</p>	<p>Graduates of this special class can obtain a master's degree by taking the admissions examination for the manufacturing technology master's program of the Department of Mechanical Engineering of the school or the mechanical-related master's classes of various schools in accordance with relevant regulations. (Master of Mechanical Engineering, Master of Automation, Master of Power Mechanical Engineering, Precision Engineering Research Institute, etc.)</p>															
<p>Scholarships and Financial Aids</p>	<p>1. The OCAC provides the following grants and subsidies:</p> <p>(1) The first two years of tuition grant: each new student will be granted TWD 20,000 per semester during the first two academic years.</p> <p>(2) Excellent Conduct and Academic Performance Scholarship: Available for those with excellent academic performance. Those who have obtained certificates and competition awards will be awarded TWD 6,000 per person per academic year.</p> <p>(3) Medical Insurance for Overseas Compatriot Students (6 months): A total of TWD 600 will be subsidized (before students enroll in National Health Insurance).</p> <p>(4) Healthcare: Every student is required to enroll in National Health Insurance and pay the insurance premiums. Students who have proof of economic hardship (or financial difficulty document) are subsidized 50 % of the insurance premiums. (Current monthly subsidy is TWD 413).</p> <p>(5) Work-study subsidy and economic hardship scholarship: TWD 2,500 per month for students who are offered work-study opportunities.</p> <p>(6) Emergency Aid: Provided on a case-by-case basis.</p> <p>2. **2025 Academic Year Industry-Academia Collaboration
Overseas Youth Vocational Training Program (OYVTP) Bachelor Degree
Admission Prospectus**

School	National Chin-Yi University of Technology
Program	Department of Artificial Intelligence and Computer Engineering (Semiconductor Manufacturing Program) -Overseas Youth Vocational Training Program 4-year Bachelor Degree
Program Abbreviation	Department of Artificial Intelligence and Computer Engineering (Semiconductor Manufacturing Program)
Program Description	<p>Teaching Philosophy:</p> <ol style="list-style-type: none"> 1. Diverse Learning and Practical Training: The curriculum is designed to integrate theoretical knowledge with practical training to equip students with skills in artificial intelligence and semiconductor manufacturing. Through corporate internships, students apply what they learn to real-world scenarios, mastering cutting-edge technologies and solving real-world problems. 2. Cultivating Innovation and Global Perspectives: The course emphasizes creative thinking and a global outlook, fostering students' innovative application of AI and semiconductor technologies. 3. Enhancing Communication and Teamwork Skills: Communication and teamwork are critical in the tech industry. Through group projects, discussions, and presentations, students develop efficient communication skills in diverse settings. Teachers encourage collaboration to enhance students' ability to work effectively in multicultural environments. <p>As a practice-oriented program, the curriculum consists of 46% theory (37 out of 80 credits) and 54% practical training (43 out of 80 credits). Students must complete 38 credits of required professional modules and at least 34 credits of elective professional modules.</p>
Graduate Career Development	Semiconductor equipment engineers, semiconductor failure analysis engineers, software engineers, AI engineers, production testing engineers, and AI application engineers.
Mandarin Courses (online or on-	<p>To assist overseas students in the program, six Mandarin courses are offered:</p> <ul style="list-style-type: none"> • Chinese Listening and Speaking I & II • Chinese Reading and Writing I & II

Internship	<ul style="list-style-type: none"> 1. Off-campus internships begin in the second year, with students working four days per week or approximately 32 hours per week. 2. Internship allowances are calculated based on the minimum wage stipulated in the Labor Standards Act. For 2025, the hourly minimum wage is TWD190, with a monthly wage of at least TWD28,590 based on the legal working hours limit (currently 40 hours/week). 3. Institutions: Semiconductor-related and smart manufacturing companies – 2024 partner companies include Siliconware Precision Industries Co., Ltd. and Greatek Electronics Inc. <p>Note: The 2024 partner companies are for reference only. Future partners for the 2025 academic year will be determined based on agreements at that time.</p>		
Work-study During Semester	Students who wish to work in Taiwan (either on campus or off campus) are required to apply for and obtain a work permit before starting a job. With the exception of the winter and summer vacations, students' total working hours shall not exceed 20 hours per week.		
Employment Counseling	<ul style="list-style-type: none"> 1. The university regularly holds job fairs and career counseling workshops, and invites alumni to share their job-hunting experiences. 2. Students also undergo self-evaluations each semester to identify areas for improvement. 		
Further Education After Graduation	Graduates of this program can sit Master's degree entrance exams of other universities in accordance with relevant regulations, such as programs in AI, computer science, electrical engineering, electronic engineering, and data science, etc.		
Scholarships and Financial Aids	<ul style="list-style-type: none"> 1. The OCAC provides the following grants and subsidies: <ul style="list-style-type: none"> (1) The first two years of tuition grant: each new student will be granted TWD 20,000 per semester during the first two academic years. (The tuition grant for national universities has been applied to actual charges, with a maximum limit of TWD 20,000) 		

- (2) Excellent Conduct and Academic Performance Scholarship: Available for those with excellent academic performance. Those who have obtained certificates and competition awards will be awarded TWD 6,000 per person per academic year.
- (3) Medical Insurance for Overseas Compatriot Students (6 months): A total of TWD 600 will be subsidized (before students enroll in National Health Insurance).
- (4) Healthcare: Every student is required to enroll in National Health Insurance and pay the insurance premiums. Students who have proof of economic hardship (or financial difficulty document) are subsidized 50 % of the insurance premiums. (Current monthly subsidy is TWD 413).
- (5) Work-study subsidy and economic hardship scholarship: TWD 2,500 per month for students who are offered work-study opportunities.
- (6) Emergency Aid: Provided on a case-by-case basis.

2. Scholarship and subsidies provided by the University:

Items	Amount	Eligibility requirements
Entrance Scholarship	TWD20,000	New students upon registration
Financial Aid for Underprivileged Students	TWD25,000 per semester	<ol style="list-style-type: none"> 1. For the first semester, students in this program who qualify as low-income and pass the review will receive financial aid. Starting from the second semester, students must complete registration and pay tuition and miscellaneous fees. They must also meet the following two requirements based on their performance in the previous semester to continue receiving aid: 2. During their time in the Overseas Youth Program, students must achieve an average academic grade of 60 or above in the previous

semester, and have failed no more than half of the courses.

3. A conduct score of 80 or above is required, with no warnings or higher disciplinary action.

1. School fees

Academic Year	Tuition*	Miscellaneous	Other fees*	Accommodation fees*	Total
1 st year First semester (The amount after deducting OCAC grant)	16,485	10,544	5,676	10,125 (Including dormitory internet fees, excluding winter and summer vacations)	42,830
1 st year Second semester (The amount after deducting OCAC grant)	16,485	10,544	10,032	10,125 (Including dormitory internet fees, excluding winter and summer vacations)	47,186
2 nd year (Amount per semester) (The amount after deducting OCAC grant)	16,485	10,544	10,032	10,125 (Including dormitory internet fees, excluding winter and summer vacations)	47,186
3 rd to 4 th year (Amount per semester)	16,485	10,544	10,032	10,125 (Including dormitory internet fees, excluding winter and summer vacations)	47,186

Tuition and Fees (TWD)

*Note:

- (1) The standards for tuition and miscellaneous fees are based on the 'Regulations for Tuition and Miscellaneous Fees of Colleges and Universities', calculated according to the government-approved fees
- (2) The university will first collect tuition fees, then refund the amount of subsidy from the OCAC to the student's account.
- (3) Others: The cost of books, materials, and laboratory fees are based on actual expenses

	<p>for modules each semester. Other fees include internet (TWD120/semester), group insurance (TWD4,956/semester), Overseas compatriot student medical insurance premiums TWD600 totally at the first 6 months. From the 7th month onwards, National Health Insurance premiums TWD826 per month.</p> <p>(4) Accommodation Fee: TWD10,125 for a four-person room, excluding air conditioning costs. Accommodation fees during winter and summer vacations are determined based on the student's situation.</p> <p>2. Living expenses (estimated) : TWD5,000-20,000/per month</p> <p>3. Additional charge:</p> <p>(1) Examinations and certificates: Subject to charges at the time.</p> <p>(2) Medical check-up: Approximately TWD600.</p> <p>(3) Book fees, material fees, and internship/lab fees are charged each semester based on the actual course requirements</p>

**2025 Academic Year Industry-Academia Collaboration
Overseas Youth Vocational Training Program (OYVTP) Bachelor Degree
Admission Prospectus**

School	National Chin-Yi University of Technology
Program	Department of Intelligent Automation Engineering (Intelligent Mechatronics and Technology Program) - Overseas Youth Vocational Training Program 4-year Bachelor Degree
Program Abbreviation	Department of Intelligent Automation Engineering (Intelligent Mechatronics and Technology Program)
Program Description	<p>Teaching Philosophy:</p> <ol style="list-style-type: none"> 1. This program focuses on practical modules, with the theory side comprising 46% (23 modules) and practical modules comprising 54% (27 modules), emphasizing practical application. Compulsory modules contribute 24 credits, professional required modules contribute 82 credits, and professional elective modules require a minimum of 22 credits. External internship modules account for approximately 17% of the overall required course credits. At least two lectures are offered each semester by outstanding industry technicians to provide students with insights into the current industry landscape. 2. External internships for this program span the second semester of the second year to the second semester of the final year, totaling six semesters and six credits per semester. The weekly internship hours for external internships range from 24 to 32 hours. 3. This international program emphasizes a "learning-by-doing" teaching and internship environment, aiming to cultivate students' excellent service attitude and dedication while enhancing their employability. To strengthen the integration of theory and practice and enrich students' practical experience, internships are scheduled from the second year onward and specialized internship courses are conducted on-site at partner companies so students receive guidance and hands-on training from industry professionals and a balanced focus on theory and practice to develop their technical skills. The structured development of this specialized program is outlined below: <ol style="list-style-type: none"> (1) Foundation Theory Stage: In the first year, students are introduced to foundation subjects, focusing on core theories. In addition to professional theoretical courses, the program offers a comprehensive Mandarin curriculum. Students to pass the A2 Chinese proficiency test before advancing to their second year. (2) Advanced Knowledge Stage: In the second year, students progress to intermediate-level knowledge, building on

advanced theoretical courses. Professional engineers from partner companies are invited to give lectures and presentations to blend theory with practical application. Students also enter industry environments in their second year for hands-on training to apply and reinforce their professional skills.

(3) Practical Skills Stage:

By the third year, students enter the skilled phase, focusing primarily on industry-based practical internship courses supplemented by elective courses at the university. This structure allows students to deepen their theoretical knowledge in the context of real-world practice. For those who may face challenges in adapting to industry internships or cannot participate due to mitigating circumstances, professional elective courses are available as a supplementary option.

(4) Expected Outcomes of the Program:

Through the combination of professional courses and industry-based practical training, graduates are equipped to pursue further studies in Taiwan or assume key roles in their fields. Expected learning outcomes include:

- (a) Information application skills
- (b) Mandarin communication skills
- (c) Mechatronic integration and development skills
- (d) Precision machinery industry skills
- (e) Mechatronic system analysis and diagnostic skills

Communication and presentation skills

Graduate Career Development

Automation control engineer, mechatronic integration engineer, process control engineer, smart manufacturing engineer, manufacturing systems engineer, process data analysis and application engineer, mechanical engineer, electrical engineer, manufacturing systems engineer, process data analysis and application engineer

Mandarin Courses (online or on-campus courses)

To assist overseas students in the program, six Mandarin courses are offered:

- Chinese Listening and Speaking I & II
- Chinese Reading and Writing I & II
- Chinese Language Support
- Chinese Listening and Speaking III

These courses are categorized into A1 and A2 classes based on Mandarin proficiency. Teaching staff consist of one full-time Mandarin instructor from the university and five adjunct instructors to assist with course delivery. Efforts are ongoing to recruit more talent to contribute to the program

<p>Internship</p>	<p>1. Off-campus internships begin in the second year, with students working four days per week or approximately 32 hours per week. 2. Internship allowances are calculated based on the minimum wage stipulated in the</p>		

	<p>Labor Standards Act. For 2025, the hourly minimum wage is TWD190, with a monthly wage of at least TWD28,590 based on the legal working hours limit (currently 40 hours/week).</p> <p>3. Institutions: The following are partner companies for industry internships for the 2024 academic year; actual internship placements are based on the year the internship is taking place:</p> <p>Tektro Technology Corp., GFC Bioenviroentek Co., Ltd., Hung Kuo Precision Mold Industrial Co., Ltd., Honho Precision Industry Corporation, Vernal Manufacturing & Engineering Co., Ltd., Lieh Kwan Enterprises Co., Ltd., Ming Yang Machinery Co., Ltd.</p>
Work-study During Semester	Students who wish to work in Taiwan (either on campus or off campus) are required to apply for and obtain a work permit before starting a job. With the exception of the winter and summer vacations, students' total working hours shall not exceed 20 hours per week.
Employment Counseling	<ol style="list-style-type: none"> The university regularly holds job fairs and career counseling workshops, and invites alumni to share their job-hunting experiences. Students also undergo self-evaluations each semester to identify areas for improvement.
Further Education After Graduation	Graduates of this program can sit Master's degree entrance exams of other universities in accordance with relevant regulations, such as programs in mechanical engineering, electrical engineering, automation engineering, engineering science, aerospace engineering, naval architecture and marine engineering, electromechanical engineering, etc.
Scholarships and Financial Aids	<ol style="list-style-type: none"> The OCAC provides the following grants and subsidies: <ol style="list-style-type: none"> The first two years of tuition grant: each new student will be granted TWD 20,000 per semester during the first two academic years. (The tuition grant for national universities has been applied to actual charges, with a maximum limit of TWD.20,000) Excellent Conduct and Academic Performance Scholarship: Available for those with excellent academic performance. Those who have obtained certificates and competition awards will be awarded TWD 6,000 per person per academic year. Medical Insurance for Overseas Compatriot Students (6 months): A total of TWD 600 will be subsidized (before students enroll in National Health Insurance). Healthcare: Every student is required to enroll in National Health Insurance and pay the insurance premiums. Students who have proof of economic hardship (or financial difficulty document) are subsidized 50 % of the insurance premiums. (Current monthly subsidy is TWD 413).

- (5) Work-study subsidy and economic hardship scholarship: TWD 2,500 per month for students who are offered work-study opportunities.
- (6) Emergency Aid: Provided on a case-by-case basis.

2. Scholarship and subsidies provided by the University:

Items	Amount	Eligibility requirements
Entrance Scholarship	TWD20,000	New students upon registration
Financial Aid for Underprivileged Students	TWD25,000 per semester	<ol style="list-style-type: none"> 1. For the first semester, students in this program who qualify as low-income and pass the review will receive financial aid. Starting from the second semester, students must complete registration and pay tuition and miscellaneous fees. They must also meet the following two requirements based on their performance in the previous semester to continue receiving aid: 2. During their time in the Overseas Youth Program, students must achieve an average academic grade of 60 or above in the previous semester, and have failed no more than half of the courses. 3. A conduct score of 80 or above is required, with no warnings or higher disciplinary action.

Tuition and Fees (TWD)

1. School fees

Academic Year	Tuition*	Miscellaneous	Other fees*	Accommodation fees*	Total
1 st year First semester (The amount after deducting OCAC grant)	16,485	10,544	5,676	10,125 (Including dormitory internet fees, excluding winter and summer vacations)	42,830
1 st year Second semester (The amount after deducting OCAC grant)	16,485	10,544	10,032	10,125 (Including dormitory internet fees, excluding winter and summer vacations)	47,186
2 nd year (Amount per semester) (The amount after deducting OCAC grant)	16,485	10,544	10,032	10,125 (Including dormitory internet fees, excluding winter and summer vacations)	47,186
3 rd to 4 th year (Amount per semester)	16,485	10,544	10,032	10,125 (Including dormitory internet fees, excluding winter and summer vacations)	47,186

*Note:

- (1) The standards for tuition and miscellaneous fees are based on the 'Regulations for Tuition and Miscellaneous Fees of Colleges and Universities', calculated according to the government-approved fees
- (2) The university will first collect tuition fees, then refund the amount of subsidy from the OCAC to the student's account.
- (3) Others: The cost of books, materials, and laboratory fees are based on actual expenses for modules each semester. Other fees include internet (TWD120/semester), group insurance (TWD4,956/semester), Overseas compatriot student medical insurance premiums TWD600 totally at the first 6 months. From the 7th month onwards, National Health Insurance premiums TWD826 per month.
- (4) Accommodation Fee: TWD10,125 for a four-person room, excluding air conditioning costs. Accommodation fees during winter and summer vacations are determined based on the student's situation.

2. Living expenses (estimated) : TWD5,000-20,000/per month

3. Additional charge:

	<p>(1) Examinations and certificates: Subject to charges at the time.</p> <p>(2) Medical check-up: Approximately TWD600.</p> <p>(3) Book fees, material fees, and internship/lab fees are charged each semester based on the actual course requirements</p>

**2025 Academic Year Industry-Academia Collaboration
Overseas Youth Vocational Training Program (OYVTP) Bachelor Degree
Admission Prospectus**

School	Kun Shan University		
Program	Department of Information Management - Overseas Youth Vocational Training Program 4-year Bachelor Degree		
Program Abbreviation	Department of Information Management		
Program Description	This program is designed to develop e-commerce professionals skilled in multimedia web development and online marketing. Through comprehensive training, students gain expertise in multimedia web technologies and digital marketing, enabling them to understand consumer behavior and implement strategies that drive marketing success and transactional goals via online platforms. Graduates will be equipped with essential technical competencies, preparing them for smooth integration into corporate environments and continuous professional growth.		
Graduate Career Development	The OCAC's Overseas Credit Guarantee Fund provides loans for entrepreneurship. Graduates are suitable for the following positions: <ul style="list-style-type: none"> ● Programmer ● Marketing Planner ● Website Developer ● Online Marketing Specialist ● Web Designer ● Advertising Copywriter 		
Mandarin Courses (online or on-campus courses)	<ol style="list-style-type: none"> 1. In both the first and second semesters, a 2-credit, 2-hour course in Chinese Reading and Expression (I) and (II) is offered, tailored to the varying proficiency levels of students. For students with limited Mandarin proficiency, instructors will provide individual guidance and support. Additionally, through arrangements by the Chinese Language Center, students are actively encouraged to participate in twice-weekly, multi-level Mandarin tutoring sessions to enhance their language skills. 2. One-on-One Mandarin Tutoring: (each semester) The tutors will be assigned for individual post-class tutoring sessions to enhance students' interest and proficiency of the language. 		
Professional and Technical Training Courses	<u>General Courses</u> <ol style="list-style-type: none"> 1. Chinese Reading and Expression (I) 2. **2025 Academic Year Industry-Academia Collaboration
Overseas Youth Vocational Training Program (OYVTP) Bachelor Degree
Admission Prospectus**

School	Minth University Of Science And Technology		
Program	Department of Intelligent Vehicles And Energy-Overseas Youth Vocational Training Program 4-year Bachelor Degree		
Program Abbreviation	Department of Intelligent Vehicles And Energy		
Program Description	<p>The goal of this department is to cultivate talents in the professional fields of vehicles, autonomous driving, and new energy applications. Therefore, the curriculum planning includes general education courses as well as professional courses based on engineering fundamentals. These professional courses gradually introduce practical courses required for vehicle development and manufacturing. Furthermore, the curriculum expands to include technical courses on vehicles, autonomous driving, and new energy to enrich students' relevant knowledge and skills. This is complemented by off-campus internships to integrate and consolidate the curriculum.</p>		
Graduate Career Development	<p>Vehicle Design and Development Engineer, Vehicle Maintenance Engineer, Equipment Engineer, Energy and Carbon Reduction Engineer, Energy Equipment Engineer, Process Engineer, Drafting Engineer, Control Engineer, Systems Engineer, Automation Engineer, Project Engineer, Vehicle Sales Specialist, etc.</p>		
Mandarin Courses (online or on-campus courses)	<p>The Mandarin courses for overseas students include (1) Elementary Chinese language (2) Daily life Chinese (3) Basic Chinese language, each for 2 credit-hours in the first semester, also Advanced Chinese language (I) (II), each for 2 credit-hours in the first year. The university also provides overseas students Mandarin tutoring classes (non-credit courses) and intensive language training courses which are arranged every week during the after-school time in the first semester. Overseas compatriot students can quickly improve their Mandarin skills as participating Mandarin courses. In the Mandarin courses, the teacher will adopt appropriate teaching materials according to the class defined level. Those who have great Mandarin skill will be directly enrolled to Advanced Mandarin courses. Students can obtain advanced Mandarin (Level B2 and above) certificates when the language skill has been qualified.</p>		
Professional and Technical Training Courses (including	<p><u>General Courses</u></p> <p>Required Courses:</p> <ol style="list-style-type: none"> Elementary Chinese I Practical Chinese I 	<p><u>Professional Courses</u></p> <ol style="list-style-type: none"> Production Management Practice Vehicle Materials Science Green Energy 	<p><u>Internship and practical courses</u></p> <p>Practical Courses:</p> <ol style="list-style-type: none"> Circuit Theory and Practice

<p>internship subjects)</p>	<p>3. Elementary Chinese II 4. Practical Chinese II 5. Taiwanese Culture</p> <p>Elective Courses:</p> <p>1. English (I) 2. English (II) 3. General Education 4. Physical Education 5. Advanced Chinese (I) 6. Advanced Chinese (II)</p>	<p>4. Heat Transfer 5. ADAS (Advanced Driver Assistance Systems) 6. Fuel Cells</p>	<p>2. Vehicle Assembly Practice 3. Electric Vehicle Power System Application Practice 4. Electric Vehicle Mechatronics Integration Practice 5. Autonomous Driving Sensor Module Practice</p> <p>Internship Courses:</p> <p>1. Industry Internship I 2. Industry Internship II 3. Industry Internship III 4. Industry Internship IV 5. Off-Campus Internship I 6. Off-Campus Internship II</p>
<p>Internship</p>	<p>1. Internship Schedule: For first and fourth-year students, the internship is 40 hours per week, 5 days a week, for a total of 36 weeks per academic year (excluding winter and summer breaks). The internship hours must comply with labor-related laws and regulations:</p> <p>(1) Normal daily internship hours and rest periods: Normal daily internship hours should not exceed 8 hours. (2) Weekly hours should not exceed 40 hours: Daily internship hours should not exceed 8 hours. (3) However, due to business needs, flexible adjustments are allowed within the 40-hour weekly limit, with a daily maximum of 10 hours.</p> <p>2. Internship Allowance: The internship allowance starts at the basic wage according to the Labor Standards Act. The internship allowance subsidy is in line with domestic students, and each internship company follows the Ministry of Labor's regulations: Starting January 1, 2025, the minimum monthly wage will be adjusted to TWD 28,590, and the hourly wage to TWD 190.</p> <p>3. Internship Institutions: Yuanjing Solar Technology Co., Ltd., Qiqi Technology Co., Ltd., Kaisheng Green Energy</p>		

	Technology Co., Ltd., and Nenghai Electric Energy Technology Co., Ltd.
Work-study During Semester	Students who wish to work in Taiwan (either on campus or off campus) are required to apply for and obtain a work permit before starting a job. With the exception of the winter and summer vacations, students' total working hours shall not exceed 20 hours per week.
Employment Counseling	<ol style="list-style-type: none"> 1. During the third year, students will be provided with information on further education pathways or employment counseling. This includes information and dates for admissions to daytime master's programs for students interested in further studies. In terms of employment counseling, job matching events for specialized class students will be held, along with guidance on resume writing and career orientation seminars, helping students understand current job market trends. 2. Internship Institution Retention Mechanism: <ol style="list-style-type: none"> (1) Internship institutions will evaluate students' daily, weekly, and monthly attendance and work performance during their entire fourth-year internship to determine retention and promotion wage standards. (2) All institutions have indicated that as long as there are job vacancies, they are willing to retain any intern who performs above average.
Scholarships and Financial Aids	<ol style="list-style-type: none"> 1. The OCAC provides the following grants and subsidies: <ol style="list-style-type: none"> (1) The first two years of tuition grant: each new student will be granted TWD 20,000 per semester during the first two academic years. (2) Excellent Conduct and Academic Performance Scholarship: Available for those with excellent academic performance. Those who have obtained certificates and competition awards will be awarded TWD 6,000 per person per academic year. (3) Medical Insurance for Overseas Compatriot Students (6 months): A total of TWD 600 will be subsidized (before students enroll in National Health Insurance). (4) Healthcare: Every student is required to enroll in National Health Insurance and pay the insurance premiums. Students who have proof of economic hardship (or financial difficulty document) are subsidized 50 % of the insurance premiums. (Current monthly subsidy is TWD 413). (5) Work-study subsidy and economic hardship scholarship: TWD 2,500 per month for students who are offered work-study opportunities. (6) Emergency Aid: Provided on a case-by-case basis. 2. Scholarship and subsidies provided by the University: The school provides a scholarship of TWD 5,000 to each of the top 20% students each

Internship	<ol style="list-style-type: none"> Off-campus internships are implemented in the fourth grade, five days a week, and the internship hours are approximately 40 hours per week. Internship allowances are calculated based on the basic wage of the Labor Standards Act and are calculated based on hours. The basic wage in 2025 is TWD190 per hour. If paid on a monthly basis, the minimum remuneration for performing labor services within the statutory normal working hours limit (currently 40 hours) is TWD28,590 per month. The school will provide off-campus internship group accident insurance for students participating in off-campus internship courses. Internship institutions: Waterfront Enterprises Co., Ltd., Platinum Hotel, TTFB company limited, FDC International Hotels, Volandourai Spring Spa & Resort, The Howard Plaza Hotel - Cultural and Educational Center, Pause Landis Resort <p>Simultaneously, the school will collaborate with leisure industry partners who have signed internship-related agreements with various departments at university.</p>			
Work-study During Semester	<p>Students who wish to work in Taiwan (either on campus or off campus) are required to apply for and obtain a work permit before starting a job. With the exception of the winter and summer vacations, students' total working hours shall not exceed 20 hours per week.</p>			
Employment Counseling	<ol style="list-style-type: none"> In coordination with this academic program, we will conduct the following employment counseling activities: <ol style="list-style-type: none"> Organize seminars on "Employment Service Laws and Workers' Rights Advocacy." Conduct training sessions on "Labor Regulations and Workplace Etiquette." Arrange visits and experiences in the field with activities such as "Internship and Workplace Experience Visits" to places like Baishisen Organic Farm, Zhuo Ye Cultural and Tourist Landscape Co., Ltd., Purple Forest Lodge Co., Ltd., and Toucheng Leisure Farm Co., Ltd. Host "Internship Company Matching Information Sessions." Provide training on "Internship Workplace Safety." Organize "Internship Experience Sharing" sessions. Facilitate "Employer Roundtable Discussions." 			

	<p>(8) Hold a "Campus Employment and Recruitment Fair" exclusively for international students.</p> <p>(9) Host "Entrepreneurship Panel Discussions."</p> <p>(10) Conduct "Evaluation-Based Employment Guidance Seminars" to help students find employment opportunities in Taiwan.</p> <p>2. Talent retention mechanism of internship institutions</p> <p>The internship institution will refer to the following performance indicators to select the best candidates for retention:</p> <p>(1) Supervisor evaluation:</p> <p>I. Whether the intern has the professional knowledge and skills required for the position.</p> <p>II. Whether the work attitude is responsible, proactive, and able to withstand stress.</p> <p>III. Attendance during the internship, interactions with colleagues, etc.</p> <p>(2) Re-interview: including wage adjustment and related benefits, and retaining the years of experience during the internship.</p>
<p>Further Education After Graduation</p>	<p>1. Graduates of this program can take the entrance examination for the master's programs in tourism and hospitality related departments of various schools according to relevant regulations. For example: Master's program in tourism and hospitality management, Master's program in leisure and sports management, Master's program in international business management or international marketing, Master's program in cultural assets and tourism development, Master's program in technology application and management, Master's program in sustainable tourism or environmental resource management.</p> <p>2. Students of this program can apply for the twinning programs offered by the school and overseas sister schools in the UK, South Korea, Japan, etc. or continue their studies at sister schools after graduation, but they must apply in accordance with regulations. These include: Middlesex University in the UK, Soonchunhyang University in South Korea, Onomichi University in Japan, and Tohoku Bunkyo University in Japan.</p>
<p>Scholarships and Financial Aids</p>	<p>1. The OCAC provides the following grants and subsidies:</p> <p>(1) The first two years of tuition grant: each new student will be granted TWD 20,000 per semester during the first two academic years.</p> <p>(2) Excellent Conduct and Academic Performance Scholarship: Available for those with excellent academic performance. Those who have obtained certificates and competition awards will be awarded TWD 6,000 per person per academic year.</p> <p>(3) Medical Insurance for Overseas Compatriot Students (6 months): A total of TWD 600 will be subsidized (before students enroll in National Health Insurance).</p>

- (4) Healthcare: Every student is required to enroll in National Health Insurance and pay the insurance premiums. Students who have proof of economic hardship (or financial difficulty document) are subsidized 50 % of the insurance premiums. (Current monthly subsidy is TWD 413).
- (5) Work-study subsidy and economic hardship scholarship: TWD 2,500 per month for students who are offered work-study opportunities.
- (6) Emergency Aid: Provided on a case-by-case basis.

2. Scholarship and subsidies provided by the University:

Items	Amount	Eligibility requirements
Academic Scholarships	TWD 1,500 - 4,000	Starting from the second semester, scholarships will be awarded to the top three students in each class according to the school's regulation.
Certificate Bonus	Bonuses are given according to different levels of certificates	Students receive their certificates during their studies.
Bonus for students participating in extracurricular academic and sports competitions	TWD 8,000 - 40,000	The reward amount is calculated based on the competition category and ranking.

	<p style="text-align: center;">Internship</p>	<ol style="list-style-type: none"> 1. Off-campus internships are implemented in the fourth grade, five days a week, and the internship hours are approximately 40 hours per week. 2. Internship allowances are calculated based on the basic wage of the Labor Standards Act and are calculated based on hours. The basic wage in 2025 is TWD190 per hour. If paid on a monthly basis, the minimum remuneration for performing labor services within the statutory normal working hours limit (currently 40 hours) is TWD28,590 per month. 3. The school will provide off-campus internship group accident insurance for students participating in off-campus internship courses. 	

	<p>4. Internship institutions: PChome Online, PChome eBay Co., Ltd., Good Drink Industry Co., Ltd</p> <p>Simultaneously, we will collaborate with leisure industry partners who have signed internship-related agreements with various departments at university.</p>
Work-study During Semester	<p>Students who wish to work in Taiwan (either on campus or off campus) are required to apply for and obtain a work permit before starting a job. With the exception of the winter and summer vacations, students' total working hours shall not exceed 20 hours per week.</p>
Employment Counseling	<p>1. In coordination with this academic program, we will conduct the following employment counseling activities:</p> <ol style="list-style-type: none"> (1) Organize seminars on "Employment Service Laws and Workers' Rights Advocacy." (2) Conduct training sessions on "Labor Regulations and Workplace Etiquette." (3) Arrange visits and experiences in the field with activities such as "Internship and Workplace Experience Visits" to places like Baishisen Organic Farm, Zhuo Ye Cultural and Tourist Landscape Co., Ltd., Purple Forest Lodge Co., Ltd., and Toucheng Leisure Farm Co., Ltd. (4) Host "Internship Company Matching Information Sessions." (5) Provide training on "Internship Workplace Safety." (6) Organize "Internship Experience Sharing" sessions. (7) Facilitate "Employer Roundtable Discussions." (8) Hold a "Campus Employment and Recruitment Fair" exclusively for international students. (9) Host "Entrepreneurship Panel Discussions." (10) Conduct "Evaluation-Based Employment Guidance Seminars" to help students find employment opportunities in Taiwan. <p>2. Talent retention mechanism of internship institutions</p> <p>The internship institution will refer to the following performance indicators to select the best candidates for retention:</p> <ol style="list-style-type: none"> (1) Supervisor evaluation: <ol style="list-style-type: none"> I. Whether the intern has the professional knowledge and skills required for the position. II. Whether the work attitude is responsible, proactive, and able to withstand stress. III. Attendance during the internship, interactions with colleagues, etc. (2) Re-interview: including wage adjustment and related benefits, and retaining the years of experience during the internship.
Further Education	<p>1. Graduates of this program can take the entrance examination for the master's programs in tourism and hospitality related departments of various schools according</p>

<p>After Graduation</p>	<p>to relevant regulations. For example: Master's program in tourism and hospitality management, Master's program in leisure and sports management, Master's program in international business management or international marketing, Master's program in cultural assets and tourism development, Master's program in technology application and management, Master's program in sustainable tourism or environmental resource management.</p> <p>2. Students of this program can apply for the twinning programs offered by the school and overseas sister schools in the UK, South Korea, Japan, etc. or continue their studies at sister schools after graduation, but they must apply in accordance with regulations. These include: Middlesex University in the UK, Soonchunhyang University in South Korea, Onomichi University in Japan, and Tohoku Bunkyo University in Japan.</p>						
<p>Scholarships and Financial Aids</p>	<p>1. The OCAC provides the following grants and subsidies:</p> <ul style="list-style-type: none"> (1) The first two years of tuition grant: each new student will be granted TWD 20,000 per semester during the first two academic years. (2) Excellent Conduct and Academic Performance Scholarship: Available for those with excellent academic performance. Those who have obtained certificates and competition awards will be awarded TWD 6,000 per person per academic year. (3) Medical Insurance for Overseas Compatriot Students (6 months): A total of TWD 600 will be subsidized (before students enroll in National Health Insurance). (4) Healthcare: Every student is required to enroll in National Health Insurance and pay the insurance premiums. Students who have proof of economic hardship (or financial difficulty document) are subsidized 50 % of the insurance premiums. (Current monthly subsidy is TWD 413). (5) Work-study subsidy and economic hardship scholarship: TWD 2,500 per month for students who are offered work-study opportunities. (6) Emergency Aid: Provided on a case-by-case basis. <p>2. Scholarship and subsidies provided by the University:</p> <table border="1" data-bbox="363 1594 1460 1953"> <thead> <tr> <th data-bbox="363 1594 711 1648">Items</th> <th data-bbox="711 1594 997 1648">Amount</th> <th data-bbox="997 1594 1460 1648">Eligibility requirements</th> </tr> </thead> <tbody> <tr> <td data-bbox="363 1648 711 1953">Academic Scholarships</td> <td data-bbox="711 1648 997 1953">TWD 1,500 - 4,000</td> <td data-bbox="997 1648 1460 1953">Starting from the second semester, scholarships will be awarded to the top three students in each class according to the school's regulation.</td> </tr> </tbody> </table>	Items	Amount	Eligibility requirements	Academic Scholarships	TWD 1,500 - 4,000	Starting from the second semester, scholarships will be awarded to the top three students in each class according to the school's regulation.

**2025 Academic Year Industry-Academia Collaboration
Overseas Youth Vocational Training Program (OYVTP) Bachelor Degree
Admission Prospectus**

School	St. John's University
Program	Department of Senior Welfare and Health Promotion - Overseas Youth Vocational Training Program 4-year Bachelor Degree
Program Abbreviation	Department of Senior Welfare and Health Promotion
Program Description	<p>The main teaching goal of this department is to cultivate professional talents with humanistic qualities, industry knowledge and skills, and diversified comprehensive practice. The curriculum focuses on the three major areas of "Nursing Services," "Social Work" and "Health Promotion" to cultivate students' abilities in the following three professional functions:</p> <ol style="list-style-type: none"> 1. Characteristics of nursing services: Improve students' long-term care capabilities, pay attention to the physical and mental needs of service recipients, develop a passionate service attitude, and have the professional ability to enter the workplace after graduation. 2. Social work characteristics: Cultivate social work and long-term care professionals who are people-oriented, care for vulnerable groups, pay attention to the psychological and social needs of service recipients, and integrate social welfare. 3. Health promotion characteristics: train students to integrate the diet, health, sports fitness, mental health, health care, and other resources needed by the service recipients, formulate prevention and support plans, and help the service recipients achieve the best physical and mental state.
Graduate Career Development	<ol style="list-style-type: none"> 1. Serve as caregivers and case managers in long-term care institutions, nursing homes, hospitals, and other units. 2. Home service agencies serve as home attendants and home service supervisors. 3. Serve as a staff member of a social welfare institution. 4. Serve as health promotion management and business personnel in the medical care field.
Mandarin Courses (online or on-campus courses)	<ol style="list-style-type: none"> 1. The first and second semesters are planned to have 2 credits and 2 hours of Mandarin courses. The content will be determined according to the students' level and provide Mandarin courses suitable for students to learn. 2. The third and fourth semesters will include a 2-credit, 2-hour course in [Mandarin Conversation], which focuses on conversation and helps students further improve their Mandarin skills.

3. For students who have not yet enrolled, the school offers a complete and free Mandarin tutoring program. The instructions are as follows:

SJU online Mandarin courses	
	Reasons for starting the course: Free voluntary tutoring for overseas students who are interested in studying in the school
	Starting class: Special class for overseas compatriot students Items and descriptions
Items and descriptions	
1. Class method (using Microsoft O365-TEAM remote online class)	
	After each course, the audio and video files recorded by the work-study students are uploaded to Ruicai for post-production (edited into a refined version) and uploaded to the website for students to review after class.
	The website also provides functions for students to review, take tests, and teachers to mark scores.
2. Certificate of completion (at the end of the course, a certificate of class hours will be issued based on the actual teaching hours)	
	A certificate of class hours will be issued based on the actual teaching hours.

**2025 Academic Year Industry-Academia Collaboration
Overseas Youth Vocational Training Program (OYVTP) Bachelor Degree
Admission Prospectus**

School	Fooyin University
Program	Department of Tourism and Recreation Management (Leisure Services Innovation and Technology Specialized)- Overseas Youth Vocational Training Program 4-year Bachelor Degree
Program Abbreviation	Department of Tourism and Recreation Management (Leisure Services Innovation and Technology Specialized)
Program Description	The educational goal of this department is to be people-centered. The program content combines practical skills training with rich culture elements. The program emphasizes humanized services and takes humanistic care as its core value, Through a holistic education approach, we train students to become professionals in the leisure and recreation industry. In order to help students narrow the gap between study and work and meet the demand for employee capabilities in the workplace, we have designed a six-semester internship course to allow students to learn in internships and become theoretical and practical professionals. The core competencies of this program planned by the department are constructed from four aspects: Professional practice courses, industrial internship courses, and the cultivation of professional practice and humanistic qualities.
Graduate Career Development	In response to the consumption trend of the domestic tourism service industry, the department places special emphasis on the professional knowledge and skills of leisure business management as the main development direction, and develops in the two major directions of “healthy tourism industry module” and “health and leisure industry module”. The department expects future graduates can serve as counter receptionists, switchboard operators, concierge receptionists/airport representatives, room attendants, service center bellhop/drivers, restaurant waiters (outside waiters), bartenders/bar personnel, restaurant outhouses foreman, assistant restaurant manager, director of housekeeping department, assistant hall manager...etc. Recreation industry service personnel: Life-saving instructor, fitness center guidance specialists, and even managers of fitness club, theme parks, leisure farms, national scenic spots and national parks.
Mandarin Courses (online or on-campus courses)	The first and second semester courses are planned to include 6 credits and 12 hours of “ Chinese Listening Practice”, “Chinese Speaking Practice”, “ Chinese Reading Practice” and “ Chinese Writing Practice” courses. There will be relevant assessments during the students’ Chinese learning , and Chinese inline tutoring courses suitable for students will be provided depending on the student’s level. The Chinese Language Center of the school provides a variety of Mandarin self-study software, which can provide students with

independent learning, and there are also consultation hours with Mandarin teachers, and local student tutoring volunteers (study companions) with two models; one-to-one or one-to-many. Individual Mandarin tutors in need are available by application.

(North Kaohsiung Branch) ● Hsiang Wen Hsing Enterprise Co., Ltd. (Fengshan Xi Yan Branch) ● Xin Ding Wang Catering Co., Ltd. ● Bassanova Co., Ltd. ● Wang (Qun) Pin Catering Co., Ltd.
<p>Work-study During Semester</p>	<p>1. Students who wish to work in Taiwan (either on campus or off campus) are required to apply for and obtain a work permit before starting a job. With the exception of the winter and summer vacations, students' total working hours shall not exceed 20 hours per week.</p> <p>2. The school can help match manufactures that comply with legal requirements, provide students with work-study opportunities, and reduce the financial burden of students in Taiwan.</p>
<p>Employment Counseling</p>	<p>1. The university periodically holds informational sessions on employment matchmaking, for valuation systems post-graduation retention in Taiwan e, and other relevant topics.</p> <p>2. Most internship companies have internal assessment mechanisms and conduct evaluations of interns on a regular or random, basis. Those who pass maybe rewarded with bonuses or promotions, and those who perform exceptionally well may receive additional guidance for staying in Taiwan.</p>
<p>Further Education After Graduation</p>	<p>1. Graduates of this program may participate in the admission exams for master's programs at various universities in accordance with relevant regulations.</p> <p>2. Additionally, the university has a total of 291 international sister schools. Students may apply for the "Pengtu Scholarship" to study abroad as exchange students. Currently, many students choose to study at overseas institutions such as Thailand's Rajabhat University, Japan's Hachioji City Nursing School, Southern Utah University in the United States, City University of Seattle, Humber College in Canada, and the</p>

University of Limerick in Ireland.

**Scholarships
and Financial
Aids**

1. The OCAC provides the following grants and subsidies:
 - (1) The first two years of tuition grant: each new student will be granted TWD 20,000 per semester during the first two academic years.
 - (2) Excellent Conduct and Academic Performance Scholarship: Available for those with excellent academic performance. Those who have obtained certificates and competition awards will be awarded TWD 6,000 per person per academic year.
 - (3) Medical Insurance for Overseas Compatriot Students (6 months): A total of TWD 600 will be subsidized (before students enroll in National Health Insurance).
 - (4) Healthcare: Every student is required to enroll in National Health Insurance and pay the insurance premiums. Students who have proof of economic hardship (or financial difficulty document) are subsidized 50 % of the insurance premiums. (Current monthly subsidy is TWD 413).
 - (5) Work-study subsidy and economic hardship scholarship: TWD 2,500 per month for students who are offered work-study opportunities.
 - (6) Emergency Aid: Provided on a case-by-case basis.

2. Scholarship and subsidies provided by the University:
 - (1) First-year on-campus accommodation is free.
 - (2) Academic Excellence Award' in place is to recognize the top ranking students for their excellent academic performance. These students will be awarded with scholarships and certificates.
 - (3) Pengtu grant program aims at nurturing outstanding students to participate in short-term overseas programs (including study tours, visits, exchange learning, volunteer service, and internships). This program encourages overseas compatriot students to apply for short-term study programs in other countries and regions, fostering the development of a multicultural international perspective.

**Tuition and
Fees (TWD)**

1. School fees

Academic Year	Tuition and Miscellaneous	Other fees*	Accommodation fees*	Total
1 st year First semester (The amount after deducting OCAC grant)	18,941	3,374	0	22,315
1 st year Second semester (The amount after deducting OCAC grant)	18,941	7,730	0	26,671

2 nd year (Amount per semester) (The amount after deducting OCAC grant)	18,941	7,730	11,000-13,500	37,671-40,171

**Work-study
During
Semester**

Students who wish to work in Taiwan (either on campus or off campus) are required to apply for and obtain a work permit before starting a job. With the exception of the winter and summer vacations, students' total working hours shall not exceed 20 hours per week.

**Employment
Counseling**

1. Internship and Employment Lectures and Counseling: The International Office of the DYHU invites experts from the Ministry of Labor and industry professionals each semester to hold multiple employment counseling lectures with various internship providers. These sessions include explanations of the internship employment matching and employment evaluation system, enabling students to prepare early and obtain relevant certifications and qualifications while still in the college.
2. Retention Mechanism for Internship Organizations: After completing their first-year courses, students in this program will be qualified as a professional caregivers. The department guides students to participate in the Labor Ministry's Single-Level Caregiver Certification exam during the summer, allowing them to secure a more professional qualification for retention. Additionally, the DYHU provides internship opportunities and organizes matching briefings with organizations and hospitals before graduation to facilitate future employment in Taiwan.

**Further
Education
After
Graduation**

1. Graduates of this program can take the entrance exam of the master's degree programs of other universities in accordance with relevant regulations.
2. Students can apply for the relevant master's program at overseas partner universities or any other universities in Taiwan, including master's programs in Long-Term Care, Elderly Care Management, and Health Industry Management.

Scholarships and Financial Aids

1. The OCAC provides the following grants and subsidies:
 - (1) The first two years of tuition grant: each new student will be granted TWD 20,000 per semester during the first two academic years.
 - (2) Excellent Conduct and Academic Performance Scholarship: Available for those with excellent academic performance. Those who have obtained certificates and competition awards will be awarded TWD 6,000 per person per academic year.
 - (3) Medical Insurance for Overseas Compatriot Students (6 months): A total of TWD 600 will be subsidized (before students enroll in National Health Insurance).

Internship	<p>1. For students in their second to fourth years, internships require 2.5 days per week, totaling 20 hours per week. Each semester includes 360 hours, equivalent to 6 credits.</p> <p>2. These are administered according to the regulations set by the Ministry of Labor. Due to the unique nature of this program, which focuses primarily on practical teaching, the ratio of internship courses is relatively high. The planning of internship courses must comply with the University Act, the Degree Conferral Act, and related regulations, as well as align with educational objectives and curriculum planning, and meet industry needs. After negotiations with partner companies, the planned internship courses for this program are outlined in the table below :</p> <p style="text-align: center;">Internship Course Plan</p> <table border="1" style="width: 100%; border-collapse: collapse;"> <thead> <tr> <th style="width: 20%;">Semester</th> <th style="width: 40%;">Courses Name</th> <th style="width: 40%;">Internship Method</th> </tr> </thead> <tbody> <tr> <td>Sophomore Fall</td> <td>Corporate Internship I</td> <td>1. 20 hours per week</td> </tr> <tr> <td>Sophomore Spring</td> <td>Corporate Internship II</td> <td>2. 18 weeks per semester, totaling 360 hours</td> </tr> <tr> <td>Junior Fall</td> <td>Corporate Internship III</td> <td>1. 20 hours per week</td> </tr> <tr> <td>Junior Spring</td> <td>Corporate Internship IV</td> <td>2. 18 weeks per semester, totaling 360 hours</td> </tr> <tr> <td>Senior Fall</td> <td>Corporate Internship V</td> <td>1. 20 hours per week</td> </tr> <tr> <td>Senior Spring</td> <td>Corporate Internship VI</td> <td>2. 18 weeks per semester, totaling 360 hours</td> </tr> </tbody> </table> <p>The internship allowance is based on the minimum hourly wage set by the Ministry of Labor for the respective year. For instance, in 2025, the minimum hourly wage is TWD 190.</p> <p>3. Work-study During Semester	Students who wish to work in Taiwan (either on campus or off campus) are required to apply for and obtain a work permit before starting a job. With the exception of the winter and summer vacations, students' total working hours shall not exceed 20 hours per week.																							
Employment Counseling	<p>1. This program will also organize job-matching and presentations, allowing other Taiwanese companies to introduce themselves to students, thereby acting as a bridge between students and business. It includes comprehensive career guidance from admission to graduation. Students are encouraged to join the Ministry of Education's SIT(Study In Taiwan) talent database, with their profiles stored in the Taiwan Alumni Database. This platform offers job counseling, life information, regular resume and interview skill seminars for overseas students, an English newsletter on policies, news and recruitment information. Students are also</p>																							

	<p>encouraged to attend the Ministry of Education’s employment seminars to learn the latest rules and considerations for working in Taiwan under the point-based system. Additionally, the program website provides a link to the Ministry of Economic Affairs’ Contact TAIWAN talent recruitment platform, with the goal of retaining talented individuals for Taiwanese companies.</p> <p>2. The talent retention mechanism at internship institutions involves notifying students for interviews after they complete the internship. Successful candidates are hired as outstanding foreign alumni. During the partnership agreement process, it is also stipulated that partner companies are required to recruit exceptional graduates.</p>																				
<p style="text-align: center;">Further Education After Graduation</p>	<p>1. The pathway for further studies in Taiwan is through graduate institutes, including related fields such as the Graduate Institute of Electrical Engineering, the Graduate Institute of Communication Engineering, and the Graduate Institute of Electronics.</p> <p>2. Overseas Sister School :</p> <table border="1" data-bbox="411 786 1485 1608"> <thead> <tr> <th style="text-align: center;">Country</th> <th style="text-align: center;">School</th> </tr> </thead> <tbody> <tr> <td style="text-align: center;">United Kingdom</td> <td>Dual Degree Program : Middlesex University</td> </tr> <tr> <td style="text-align: center;">South Korea</td> <td>Exchange School : Sungshin Women’s University 、 Hansae University 、 Sejong University 、 Hansao University 、 Induk University</td> </tr> <tr> <td style="text-align: center;">Malaysia</td> <td>Exchange School : University Tunku Abdul Rahman</td> </tr> <tr> <td style="text-align: center;">Vietnam</td> <td>Exchange School : Hong Bong International University</td> </tr> <tr> <td style="text-align: center;">United States</td> <td>Exchange School : Pittsburg State University</td> </tr> <tr> <td style="text-align: center;">Canada</td> <td>Exchange School : Vancouver International College, Sprott Shaw College 、 City University in Canada</td> </tr> <tr> <td style="text-align: center;">Spain</td> <td>Exchange School : EUHT StPOL University</td> </tr> <tr> <td style="text-align: center;">New Zealand</td> <td>Exchange School : YOOBEE College</td> </tr> <tr> <td style="text-align: center;">Australia</td> <td>Exchange School : ICHM International College of Hotel Management</td> </tr> </tbody> </table>	Country	School	United Kingdom	Dual Degree Program : Middlesex University	South Korea	Exchange School : Sungshin Women’s University 、 Hansae University 、 Sejong University 、 Hansao University 、 Induk University	Malaysia	Exchange School : University Tunku Abdul Rahman	Vietnam	Exchange School : Hong Bong International University	United States	Exchange School : Pittsburg State University	Canada	Exchange School : Vancouver International College, Sprott Shaw College 、 City University in Canada	Spain	Exchange School : EUHT StPOL University	New Zealand	Exchange School : YOOBEE College	Australia	Exchange School : ICHM International College of Hotel Management

<p style="text-align: center;">Scholarships and Financial Aids</p>	<p>1. The OCAC provides the following grants and subsidies:</p> <p>(1) The first two years of tuition grant: each new student will be granted TWD 20,000 per semester during the first two academic years.</p> <p>(2) Excellent Conduct and Academic Performance Scholarship: Available for those with excellent academic performance. Those who have obtained certificates and competition awards will be awarded TWD 6,000 per person per academic year.</p> <p>(3) Medical Insurance for Overseas Compatriot Students (6 months): A total of TWD 600 will be subsidized (before students enroll in National Health Insurance).</p>																				

- (4) Healthcare: Every student is required to enroll in National Health Insurance and pay the insurance premiums. Students who have proof of economic hardship (or financial difficulty document) are subsidized 50 % of the insurance premiums. (Current monthly subsidy is TWD 413).
- (5) Work-study subsidy and economic hardship scholarship: TWD 2,500 per month for students who are offered work-study opportunities.
- (6) Emergency Aid: Provided on a case-by-case basis.

2. Scholarship and subsidies provided by the University:

(1) Academic Excellence Award : Based on the academic performance of students in the day division during the previous semester, the top 3 students in each grade level will be awarded prizes accordingly. The first-place student in the day division will receive TWD3,500, the second-place student TWD2,500, and the third-place student TWD1,500. The prize amounts may be adjusted according to the school's budget, with the aforementioned amounts as the maximum limit.

(2) After students have been admitted, the school will provide them with the scholarship guidelines mentioned in 'The Implementation Regulation of Scholarship for International Students and Overseas Chinese Students,' specifically those outlined in sections six and eight. The rules and regulations regarding scholarships and bursaries for this particular class will be announced upon approval from the principal.

To protect students' internship rights, the university will provide "Group Insurance for Off-Campus Internship" during their internships outside the university. According to the Ministry of Labor's minimum wage policy, the hourly minimum wage for 2025 is TWD190. Internship stipend will be adjusted based on each company and position but may not fall below the minimum hourly wage set by the Ministry of Labor. Other benefits, such as attendance bonuses, meals, etc., will be managed according to respective company's policies for interns. Internship Institutions : CitySuites, KINDNESS HOTEL, AN-SHIN FOOD, SERVICES CO.,LTD., ROSE HOUSE TEA & ART GROUP CO., LTD., HI LAI FOODS, TTFB COMPANY LIMITED, Sushi Express Group, THE LEES HOTEL CO., LTD., KURA SUSHI ASIA CO.,LTD., Kaohsiung Marriott Hotel, Toongmao Hotel, Huahou Hotel, TAI Urban Resort, CU Hotel, Sharing Restaurant Co., LTD., BOSSA NOVA RESTAURANT BUSINESS CO., LTD, North Ocean Co, LTD, Share Yu Foods Co., LTD. 		
Work-study During Semester	Students who wish to work in Taiwan (either on campus or off campus) are required to apply for and obtain a work permit before starting a job. With the exception of the winter and summer vacations, students' total working hours shall not exceed 20 hours per week.		
Employment Counseling	<ol style="list-style-type: none"> Department of Hospitality and Baking Management plans to provide guidance for obtaining hospitality-related certifications during the study period, as well as to improve student's Chinese and English language skills. This will enhance their foundational abilities and increase their chance of staying in Taiwan for work in the future. Additionally, the university's International Office will host a series of employment seminars for senior students, providing information on applying to stay in Taiwan for work after graduation. Each student will be assigned an on-campus internship advisor during their internship phase. The advisor will not only guide them in their internship work but also assist graduates with job-matching and counseling for studying in Taiwan for employment. 		
Further Education After	<ol style="list-style-type: none"> Student may apply to pursue further studies at graduate institutes within or outside the university, such as the Graduate Institute of Information Management, the 		

Graduation	Graduate Institute of Smart Business, and the Graduate Institute of Business Information Application.

Scholarships and Financial Aids	<p>1. The OCAC provides the following grants and subsidies:</p> <p>(1) The first two years of tuition grant: each new student will be granted TWD 20,000 per semester during the first two academic years.</p> <p>(2) Excellent Conduct and Academic Performance Scholarship: Available for those with excellent academic performance. Those who have obtained certificates and competition awards will be awarded TWD 6,000 per person per academic year.</p> <p>(3) Medical Insurance for Overseas Compatriot Students (6 months): A total of TWD 600 will be subsidized (before students enroll in National Health Insurance).</p> <p>(4) Healthcare: Every student is required to enroll in National Health Insurance and pay the insurance premiums. Students who have proof of economic hardship (or financial difficulty document) are subsidized 50 % of the insurance premiums. (Current monthly subsidy is TWD 413).</p> <p>(5) Work-study subsidy and economic hardship scholarship: TWD 2,500 per month for students who are offered work-study opportunities.</p> <p>(6) Emergency Aid: Provided on a case-by-case basis.</p>
	<p>2. Scholarship and subsidies provided by the University:</p> <p>(1) Academic Excellence Award : Based on the academic performance of students in the day division during the previous semester, the top 3 students in each grade level will be awarded prizes accordingly. The first-place student in the day division will receive</p>

TWD3,500, the second-place student TWD2,500, and the third-place student TWD1,500. The prize amounts may be adjusted according to the school's budget, with the aforementioned amounts as the maximum limit.

(2) After students have been admitted, the school will provide them with the scholarship guidelines mentioned in 'The Implementation Regulation of Scholarship for International Students and Overseas Chinese Students,' specifically those outlined in sections six and eight. The rules and regulations regarding scholarships and bursaries for this particular class will be announced upon approval from the principal.

**2025 Academic Year Industry-Academia Collaboration
Overseas Youth Vocational Training Program (OYVTP) Bachelor Degree
Admission Prospectus**

School	Lunghwa University of Science and Technology		
Program	Department of Semiconductor Engineering--Overseas Youth Vocational Training Program 4-year Bachelor Degree		
Program Abbreviation	Department of Semiconductor Engineering		
Program Description	<ol style="list-style-type: none"> 1. This program aims to train "semiconductor engineering professionals". 2. The core curriculum is designed to equip students with the testing capabilities required by quality testing standards; to be able to independently complete the writing of test reports and achieve the accuracy required by customers; to be able to independently set up and familiarize themselves with the operation of the equipment and troubleshooting; to be able to independently operate, judge data, and easily maintain testing equipment; to be able to independently establish an equipment networking framework for remote testing equipment linkage; and to be able to independently establish a data networking framework for testing data collection. 		
Graduate Career Development	Semiconductor Process Engineer, Semiconductor Packaging Engineer, Semiconductor Test Engineer, Wafer Material Engineer, Specialty Chemicals R&D Engineer		
Mandarin Courses (online or on-campus courses)	The school has set up a Chinese Language Center, which plans 4 credits of elementary Chinese courses and 1 credit of elementary Chinese conversation courses in the first and second semesters and adds Mandarin proficiency courses to meet the needs of overseas youth technical training students for Mandarin reinforcement teaching. Mandarin courses will be delivered according to the student's level and will provide content that is suitable for the student's learning. The Chinese Language Center provides consultation hours for Mandarin teachers and provides local students with academic and academic partners to help them adapt to their studies and life.		
Professional and Technical Training Courses (including internship subjects)	<u>General Courses</u> <ol style="list-style-type: none"> 1. Elementary Mandarin (I) 2. Elementary Mandarin Conversation (I) 3. Elementary Mandarin Certification (I) 4. Practical English (I) 5. Elementary Mandarin (2) 	<u>Professional Courses</u> <ol style="list-style-type: none"> 1. 	25. Power Semiconductor Components	
	26. Semiconductor Specialty Chemicals	
	27. Introduction to Nanotechnology	
	28. Engineering Statistics and Experimental Methods	
	29. Introduction to Artificial	

		Intelligence and Applications 30. Semiconductor Circular Economy	
Internship	1. Students will start off-campus internship from the second semester of the second academic year. About 20 hours per week, a semester of 18 weeks, the work mode is based on three days of internship, two days of classes, and two days off per week. A total of 36 credits (up to 80 hours per credit) for an elective credit of industrial practice and internship report, with a total of 2,280 hours of internship. 2. Internship allowance will be given in accordance with the Labor Standards Law, and the internship allowance is TWD 190 /hour. 3. Internship Institutions: ERIS Technology Co., Ltd., Yeashin Technology Co., Ltd		
Work-study During Semester	Students who wish to work in Taiwan (either on campus or off campus) are required to apply for and obtain a work permit before starting a job. With the exception of the winter and summer vacations, students' total working hours shall not exceed 20 hours per week.		
Employment Counseling	1. In order to make what students learn in line with the workplace, and let students have a further understanding of the workplace and experience workplace ethics before employment. The school also regularly organizes job fairs to invite manufacturers to the school to recruit talents to help students connect with the job market after graduation. In addition, it provides employment and career information on the school's website, and sets up the school's exclusive 'employment information webpage' to provide two-way services for manufacturers to recruit talents and students to seek talents and work, with an average of more than 40 manufacturers logging in every month, providing more than 100 employment, job change and work-study opportunities; In addition, the manufacturers are required to produce advertisements and post them on the employment information bulletin boards of each department, announce the employment information from time to time, and hold student enterprise matchmaking briefings from the beginning of the senior year. 2. In addition to inviting students to participate in the briefing session of the evaluation system for staying in Taiwan, the current cooperative enterprises ERIS and Yeashin Company, the company has a local survey in Vietnam, and has a plan to set up a factory in Vietnam.		
Further Education After Graduation	1. In addition to applying for the university's engineering colleges and graduate schools, graduates of this program can also apply for the university's master's program entrance examinations in accordance with relevant regulations. 2. Students can also apply for the relevant master's program at overseas partner universities or any other universities. The overseas sister universities include Akita		

University, Utsunomiya University, Seoul National University of Science and Technology, Son Duc Thang University in Vietnam, Twin Cities University in Malaysia, UGM University in Indonesia, and Indonesia Institute of Catering and Tourism.

**Scholarships
and Financial
Aids**

1. The OCAC provides the following grants and subsidies:
 - (1) The first two years of tuition grant: each new student will be granted TWD 20,000 per semester during the first two academic years.

**2025 Academic Year Industry-Academia Collaboration
Overseas Youth Vocational Training Program (OYVTP) Bachelor Degree
Admission Prospectus**

School	Lunghwa University of Science and Technology		
Program	Department of Tourism and Leisure--Overseas Youth Vocational Training Program 4-year Bachelor Degree		
Program Abbreviation	Department of Tourism and Leisure		
Program Description	The curriculum planning and development of this department is based on the core of guided tours and explanations and is interwoven with the two modules of leisure transportation and catering services. The curriculum is based on “foreign language”, “tourism and leisure” as the content, “digital technology” as the method, and through “project production” and “enterprise internship”. The program will strengthen the interaction with the tourism and leisure industry, cultivate high-quality international tourism and leisure talents, and provide tourism services of international standards.		
Graduate Career Development	Tourism business personnel, leisure industry personnel, baristas, sommeliers, bartenders, catering managers, beverage research and development personnel		
Mandarin Courses (online or on-campus courses)	The school has set up a Chinese Language Center, which plans 4 credits of elementary Chinese courses and 1 credit of elementary Chinese conversation courses in the first and second semesters and adds Mandarin proficiency courses to meet the needs of overseas youth technical training students for Mandarin reinforcement teaching. Mandarin courses will be delivered according to the student's level and will provide content that is suitable for the student's learning. The Chinese Language Center provides consultation hours for Mandarin teachers and provides local students with academic and academic partners to help them adapt to their studies and life.		
Professional and Technical Training Courses (including internship subjects)	<u>General Courses</u> 1. Elementary Mandarin (I), (II) 2. Intermediate Mandarin (1), (2) 3. Workplace English (I) (II) 4. Physical Education (I) (II) 5. Core Liberal Studies (1) Workplace Ethics 6. Workplace Safety and	<u>Professional Courses</u> 1. International Etiquette 2. Tourism and Food Culture 3. Introduction to Sightseeing and Leisure 4. Communication and Expression 5. Tourism Geography 6. Leisure Consumer Behavior 7. Leisure and Dining	<u>Internship and practical courses</u> 1. Coffee making practice 2. Wine tasting and service 3. Beverage preparation and management 4. Guided tours and interpretation

	<p>Health</p> <p>7. Life Safety and First Aid</p>	<p>Aesthetics</p> <p>8. Eco-tourism and Sustainable Tourism</p> <p>9. Intelligent Tourism and Technology Application</p> <p>10. Tour Planning and Design</p> <p>11. Taiwan Food Culture</p> <p>12. Healthy Dining Design Practice</p> <p>13. Leisure and Healthy Living</p> <p>14. Tourism and Leisure Career Planning</p> <p>15. Consumer Disputes and Handling</p> <p>16. Leisure Hotel and Club Management</p> <p>17. Local Specialty Industries</p>	<p>5. Hotel management practice</p> <p>6. **2025 Academic Year Industry-Academia Collaboration
Overseas Youth Vocational Training Program (OYVTP) Bachelor Degree
Admission Prospectus**

School	Ling Tung University		
Program	Department of Information Technology - Overseas Youth Vocational Training Program 4-year Bachelor Degree		
Program Abbreviation	Department of Information Technology		
Program Description	<p>The goal of this program is to train professional personnel with smart manufacturing technology skills. The planning process of applying for the creation of a new “Department of Intelligent Manufacturing Technology”. It was immediately initiated to show the active vigor in this development goal. Accordingly, the program aims to cultivate students to become intelligent robotic arm application talents to become engineers, and to equip students with the technical ability of “robotic arm control technology”, “automation practical technology integration” and “intelligent manufacturing technology”. Hence, the students can practically work in the job market after graduation.</p>		
Graduate Career Development	<p>Future career options for this department: software system development engineer, game software design engineer, information software management and maintenance engineer, network planning management and maintenance engineer, etc.</p>		
Mandarin Courses (online or on-campus courses)	<p>The first semester and second semester courses are planned to be 2 credits and 2 hours “Chinese Reading and Thinking” and “Chinese Application and Written Expression” and the contents will depend on the level of the students to provide the Mandarin courses suitable for the students to learn.</p> <p>Besides the formal curriculum, remedial Mandarin courses will be arranged for students who are behind in their Mandarin progress.</p>		
Professional and Technical Training Courses (including internship subjects)	<p><u>General Courses</u></p> <ol style="list-style-type: none"> 1. Introduction to Computers 2. Introduction to Network Technology 3. Basic Programming 4. Basic Web Design 5. Computer-Aided Mechanical Drawing 6. Internet of Things and Internship 7. Artificial Intelligence 	<p><u>Professional Courses</u></p> <ol style="list-style-type: none"> 1. Industrial Manufacturing Processes 2. Process Design 3. Workplace Ethics 4. Digital Logic and Internship 5. Programmable Controller Applications 6. 3D Printing and Internship 7. Electronic Circuits and Internship 	<p><u>Internship and practical courses</u></p> <ol style="list-style-type: none"> 1. Industrial Practice Internship (I) 2. Industrial Practice Internship (II) 3. Industrial Practice Internship (III) 4. Industrial Practice Internship (IV) 5. Industrial Practice

	8. Practical Network Technology 9. Cloud Applications 10. Smart Manufacturing Production Line Management 11. English 12. Chinese Reading and Thinking 13. Chinese Application and Writing Expression 14. Physical Education	8. Reverse Engineering Technology 9. RFID Applications 10. Introduction to Machine Tools 11. Information Security 12. Smart Robot Programming 13. Internet of Mechanical Equipment Practice 14. E-Commerce 15. Big Data Analysis 16. Computer-Aided Engineering Design	Internship (V) 6. Industrial Practice Internship (VI)
Internship	<ol style="list-style-type: none"> The Off-campus internships will be implemented in the second grade, with 2.5 days per week and about 20 hours/week. The internship allowance is based on the basic wage according to the Labor Standards Law and is calculated on an hourly basis. In 2025, the basic wage will be TWD 190 per hour; in addition, if the internship is paid on a monthly basis, the minimum compensation for performing the work according to the statutory upper limit of normal working hours (currently at 40 hours) will be TWD 28,590 per month. Internships: Vickers (Switzerland), Ching Hung Electric, Air Titanium Technology, Mastech Iron Works, Lihwan Electro-Mechanical Technology, Irish Business Speed Union Corporation, Singer Machine Industry Co. Other benefits provided by the partner companies: <ol style="list-style-type: none"> General welfare measures include: labor insurance, health insurance, labor pension contributions, group insurance, year-end bonuses, three holidays' bonuses, and employee discounts. Other welfare measures include: health checkups, special holiday bonuses and gifts. The above welfare measures are subject to the regulations of each company. 		
Work-study During Semester	Students who wish to work in Taiwan (either on campus or off campus) are required to apply for and obtain a work permit before starting a job. With the exception of the winter and summer vacations, students' total working hours shall not exceed 20 hours per week.		
Employment Counseling	<ol style="list-style-type: none"> After entering the first semester, the school invites industry experts to hold career seminars to familiarize students with Taiwan's corporate culture to help them understand Taiwan's labor regulations. Then, the second semester began to arrange internships with manufacturers to 		

	<p>matchmaking activities so as to students can enter the summer break into the factory work study. The fast adaptation to the work environment is needed and if there is a failure to adapt to the factory can also be changed early.</p> <p>3. The school regularly organizes seminars for overseas students to stay in Taiwan. Hence, the students can understand the relevant government regulations early and apply for employment in Taiwan after graduation using the point system for staying in Taiwan.</p> <p>4. Finally, students on the eve of graduation, the school will also introduce some internship companies and other related industries. This is for graduates who wish to stay in Taiwan to provide employment opportunities and interviews.</p>						
<p>Further Education After Graduation</p>	<p>1. Channels for further study in Taiwan: The school's information technology department has a graduate school that can provide students with further studies, and students can also apply for its information-related graduate schools.</p> <p>2. The school has established joint programs with well-known overseas universities, such as Sapporo International University, Sapporo University, Middlesex University, Birmingham College University, Humphreys University, etc. Students with excellent academic performance can apply for exchange students, or apply for their master's programs after graduation to continue their studies.</p>						
<p>Scholarships and Financial Aids</p>	<p>1. The OCAC provides the following grants and subsidies:</p> <p>(1) The first two years of tuition grant: each new student will be granted TWD 20,000 per semester during the first two academic years.</p> <p>(2) Excellent Conduct and Academic Performance Scholarship: Available for those with excellent academic performance.
